"Receipt books in Financial Rule Form No. 1B should be used by Government servants (other than those of the Public Works and Irrigation Departments) for giving the payer a receipt. Blank books should be kept in the safe custody of the officer who will use them".

Page 21.—Rule 34.—Insert the following as note 7 under this Rule:—

Use of inferior servants to fetch or carry money should be definitely discouraged. If the amount of a bill is between Rs. 500 and Rs. 1,000, two peons should be sent to bring the money and if the money exceeds Rs. 1,000 a clerk of the department concerned should go to get the money accompanied by two trustworthy peons. The clerk or the peon who brings the money should be provided with a leather bag with a lock and chain which can be secured to his body. When the amount of money to be handled is considerable a larger number of peons or an armed police escort may be employed at the discretion of the head of the department if the local conditions or the amount of the sums carried make it advisable to adopt additional precautions.

This procedure should also be followed in making remittances to the treasury.

"When an officer accepts charge of a fund which is not Government money but money got by subscription or otherwise for expenditure on charitable and other purposes under his auspices, he does so in his personal capacity. The best way to discharge his responsibilities would be to place the money in an account opened for the purpose in hand either in a Co-operative Bank or in the Post Office and keep an account entirely separate from the account of Government money maintained by him. Government safes should not be used for the custody of such money or for the custody of any personal property of a Government servant.

Page 21—Rule 34.—Add the following to Rule 34 as a new paragraph:—

Rules for the guidance of private candidates for the Matriculation Examination of 1936.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned below:—

Date of examination—22nd, 23rd, 25th, 26th and 27th November 1935.

Female candidates and teachers of schools recognised by the Calcutta University, or any other University or any Board of Secondary Education in India are not required to pass the test examination for private candidates held by the Inspector of Schools, Chittagong Division.

3. Private candidates offering hygiene as one of their subjects need not obtain the previous permission of University for that purpose. They will be required to satisfy the Inspector of Schools that they have undergone a course of training in the subject. For this purpose they should submit to the Divisional Inspector of Schools, along with their applications for permission to appear at the test examination, certificates of training in it from a recognised medical practitioner or from a recognised teacher in hygiene.

4. Each private student will pay a fee of Rs. 5 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the headmaster of the institution in which he appears.

5. Application for permission to appear at the Test Examination must be sent in time in duplicate in the enclosed form so as to reach this office not later than the 15th November 1935.

6. The Inspector on being satisfied will grant necessary permission and return the application, which will then be the candidate's passport for admission to the Test Examination.

7. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear, at least 15 days before the date of that examination. The headmaster will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

8. The headmasters of the institutions named in paragraph 2 above should direct private candidates who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their presence. They will then grant the necessary certificate and forward the applications to the Inspector for countersignature, after which they will be returned to the headmasters for delivery to the candidates concerned.

9. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

10. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

11. The Matriculation Examination will be held in March 1936, the exact dates of which will be notified by the University.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 5th August 1935.

First Forecast of the Cotton Crops of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—The weather was generally favourable for sowing and early period of growing. The present outlook is reported to be fair, on the whole.

Area sown.—The area sown is reported to be 72,785 acres this year as against 72,903 acres in the corresponding forecast of last year. The decrease in area in the Tripura State is due to the fall in the price of cotton.

Director of Agriculture, Bengal (offg.).

Such list shall be termed "The Respondent's List" and shall be divided into two parts like the Appellant's List (Rule 12).

21. The Officer in charge of the Judicial Department shall within fourteen days after the delivery by the Appellant and the Respondent of their lists, respectively, make and deliver to the Advocate for such Appellant and to the Advocate for such Respondent separate estimates of the cost of preparing their portions of the Paper-book in form Nos. N14 and N16, respectively, of the Appendix. Copies of the estimate shall be served on the parties (Appellant and Respondent) themselves by registered post with acknowledgment due, the cost for the same being included in the estimate and deducted from the Initial Deposit.

Every estimate for the cost of the preparation of the Paper-book shall include the cost of transcribing, translating and printing, etc., the documents mentioned in the first paragraph of Rule 11 above. No revision of the lists filed by the Advocates of either party shall be allowed after the estimates have been prepared and served on the respective Advocates, except under the orders of the Registrar to be obtained on an application with notice to the other side. The application for revision shall be a verified one but if the revision is agreed to by the opposite party such application for revision need not be verified.

22. The Appellant and Respondent respectively shall deposit with the Accountant of the Court the amount due on the estimates served under Rule 21 within the periods here specified—

(a) The amount due for estimating, translating, and examining translations, after (in the case of the Appellant) deducting the amount of the Initial Deposit made under Rule 29(1), Chapter V, within four weeks of the service of the estimate; and

(b) The whole of the remainder within eight weeks of the service of the estimate.

23. If the Respondent considers that any paper or portion of a paper which ought to have been inserted in the Appellant's list under the provisions of Rule 14 has been omitted therefrom in violation of these provisions, he may, at the time of filing the Respondent's list as prescribed in Rule 20, and after giving notice to the Appellant of his intended application, apply to the Registrar for an order that such paper or portion of a paper be inserted in the Paper-book of the case at the cost of the Appellant:

Provided that if any such application by a Respondent is disallowed by the Registrar, such Respondent shall be at liberty, at that time, to pray for the inclusion of the papers mentioned in his application, in his list (that is, the Respondent's List) at his own cost:

Provided also that if the Respondent has entered appearance out of time he shall not be permitted to pray for the inclusion in, or exclusion from, the Appellant's list of any papers whatsoever.

24. If one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant, and the other party nevertheless insists upon its being included and the Registrar allows the document to be included, the Order Book and List shall clearly indicate the fact that, and the party by whom, the inclusion of the document was objected to.

25. The Registrar as well as the parties and their legal agents shall endeavour to exclude from the Paper-book all documents (more particularly such as are merely formal) that are not relevant to the subject-matter of the Appeal, and generally, to reduce the bulk of the Paper-book as far as practicable, taking special care to avoid the duplication of documents and the unnecessary repetition of headings and other merely formal parts of documents.

Note (1).—Ordinarily, a long series of documents, such as accounts, rent-rolls, inventories, etc., should not be printed in full; but the parties or their legal agents should agree to short extracts being printed as specimens.

Note (2).—Documents produced before the Court of first instance, but not admitted in evidence, shall not be included in the Paper-book except under the orders of the Registrar obtained upon an application (unstamped) with notice to the opposite party. An Advocate desiring to refer to any such document at the hearing of the Appeal before the High Court shall, at any time before the hearing, serve on the Advocate for the opposite party a typewritten copy or a typewritten copy of the translation, as the case may be, of any such document to which he desires that reference should be made, and shall also provide two such typewritten copies or typewritten copies of the translation for the use

of the Court. If he fails to do so he shall not refer to such document at the hearing and no adjournment of the Appeal will be granted on this account unless the Court otherwise directs.

26. The Appellant's and the Respondent's lists shall each bear a certificate under the hand of the Advocate for such Appellant or Respondent in the following form:—

I A.B., Advocate for do hereby certify that I have carefully examined this list with reference to the provisions of Rule 25, Chapter IX of the Appellate Side Rules, and declare that in my judgment it is necessary to include in the Paper-book of the Appeal every document, or portion of a document, included in the list in order to arrive at a proper decision of the Appeal.

27. If the Respondent does not enter an appearance or does not deliver the list directed by, and within the time prescribed by, Rule 20, and if no order be made under Rule 23, the Paper-book shall be prepared in accordance with the Appellant's list.

28. When two or more Appellants or Respondents have the same interest in the Appeal, one set of list only shall be required from all such Appellants or Respondents. Appellants or Respondents having separate interests shall deliver separate sets of lists. In such cases the principle of Rule 32 shall apply.

29. If any of the papers, which must be inserted in the Appellant's List or in the Respondent's List, was previously printed in a former Paper-book, the fact of its having been so printed must be stated in the list in which such paper is inserted. Such papers shall not be printed unless the Registrar otherwise directs:

Provided that it shall be open to the Registrar to direct that the party who refers to papers in a previous Paper-book shall, unless he was the Appellant in the previous case, pay the charge fixed for the sale of Paper-books from the Record Department for the use of the previous Paper-book.

30. No paper in the record of the case, which is not inserted in the Appellant's or Respondent's List, or ordered to be included in the Paper-book under Rule 23, and printed in the Paper-book of the case or in a previous Paper-book, shall be referred to at the hearing of the Appeal without the special leave of the Court. But this rule shall not preclude the Court from referring to any paper to which it considers a reference necessary for the ends of justice.

31. If it subsequently appears that the amount deposited by either party to the Appeal is insufficient to defray the cost of preparing his portion of the Paper-book, or a supplementary Paper-book after remand, the Officer in charge of the Judicial Department shall estimate the additional amount required and shall give notice thereof to such party. Such additional amount shall be deposited by such party with the Accountant of the Court within two weeks after service upon him of such notice. No work in the matter of the preparation of the Paper-book, which is likely to cost more than the sum deposited, should ordinarily be undertaken, until such additional deposit has been made, unless the Registrar shall otherwise direct.

32. When separate Appeals have been preferred by different persons against the same decree, complete lists of the documents which the parties wish to include in the Paper-book shall be delivered by the parties to each Appeal. Common matter shall appear in one Paper-book only, the other Paper-books containing references to the pages of the Paper-book in which such common matter appears. In such cases the Officer in charge of the Judicial Department shall, subject to the order of the Registrar, apportion between the parties concerned the cost of preparation in respect of matter common to all or any of the parties. The estimates for the cost of the preparation of Parts I and II of the Paper-books in such cases shall not be served on the parties until such apportionment has been made. This rule shall also apply when two or more separate Appeals are preferred in analogous cases.

33. If the Appellant fails to deliver his list of papers in accordance with Rule 16, or if the Appellant or Respondent fails to make the deposit or additional deposit, required by Rules 22 and 31, respectively, the Officer in charge of the Judicial Department shall lay the matter before the Registrar, who may, in case of default by the Appellant, cause the appeal to be set down for hearing; and the Court may, unless satisfied that there was reasonable ground for the default, direct the Appeal to be dismissed for want of prosecution or may pass such other order as may seem proper in the circumstances of the case.

34. The Appellant shall within two weeks of the signing of the Vakalatnama authorising an Advocate to file the Appeal, file with the Officer in charge of the Judicial Department a declaration duly signed by himself stating the name of the Advocate, duly qualified under Rule 35, by whom his Paper-book will be prepared, either in accordance with Rule 45 or with Rule 49, and such declaration shall be noted in the order book of the Appeal. The declaration shall be in the following form:—

In this Appeal I/we.. Appellant/Appellants, declare that the Paper-book will be prepared by Mr..., an Advocate of this Court, who is duly qualified to prepare Paper-books under Rule 35, Chapter IX of the Appellate Side Rules.

The Officier in charge of the Judicial Department shall thereupon make over to the Advocate so named the duplicate copy of the Respondent's list filed under Rule 20, giving the Respondent notice thereof.

35. Any Advocate who has practised in the High Court for a period of three years, or who has practised in a Muffasal Court for not less than three years and in the High Court for not less than one year, shall be entitled to prepare a Paper-book under these rules.

Provided that a Division Court, on being satisfied, either on the report of the Registrar or otherwise, that any Advocate has been negligent, incompetent; or careless in the preparation of a Paper-book, may disqualify such Advocate from preparing Paper-books for such period as to it may seem proper.

36. An Advocate duly authorised to prepare a Paper-book shall be required to make a declaration in writing simultaneously with the deposit under Rule 22(*a*) to the effect that he will himself do the translation work and, in the case of an Appeal valued under Rs. 10,000, a declaration to the effect that he will himself also do the editing. The declaration shall be in the following form:—

37. (*a*) An Advocate authorised under Rule 34, who has filed a declaration under Rule 36, shall be afforded all reasonable access to the original record in order to enable him to make transcripts of the papers and do other acts necessary to the preparation of the Paper-book, but he shall not be entitled to remove such original record from the Court's office. Certified transcripts of the papers shall be furnished to him, if he so desires, upon payment of the usual rates.

(*b*) Such Advocates shall himself deal with the original records made over to him, and is hereby prohibited from entrusting them to the care of any other person. For the purpose of translating and copying documents in any case, he alone will be permitted to have access to the original record of such case.

(*c*) Such Advocate shall be permitted to utilize the services of one reader or Muharrir to assist him in such work. He must however himself be present and continuously in possession of the records, and on his leaving the office, the records must be returned to the Officer of the Court in charge, and the work of preparing the Paper-book must at once cease, the reader or Muharrir leaving with his employer.

(*d*) In the case of any Paper-book in which a map has to be inserted such Advocate shall be allowed to utilize also the services of a draftsman, who will be allowed access to the records on the same terms as the reader or Muharrir.

(*e*) The Advocate filing a declaration under Rule 36 shall examine, at the time of filing such declaration, the lists and estimates prepared for the preparation of the Paper-book and, if he thinks that he requires the assistance of another Advocate or Advocates for the preparation of the Paper-book, shall present a formal application to the Registrar stating the grounds upon which the application is made, and the Registrar may pass a special order after an examination of the actual requirements of the case:

Provided that every additional Advocate allowed shall have already entered appearance on behalf of the Appellant; be eligible under Rule 35; and comply with the provisions of Rule 36.

***Strike out in the case of Appeals valued at Rs. 10,000 or over.**

The provisions of clauses (*a*) to (*d*) of this Rule shall apply to all the Advocates thus employed in the preparation of a Paper-book, and they shall be jointly responsible under the Rules of this Chapter for the proper and punctual preparation of the same.

38. (*a*) The time within which the examination of translations should be completed is as follows:—

(*i*) When the Paper-book is estimated by the Officer in charge of the Judicial Department to consist of not more than 100 pages—two weeks;

(*iii*) In any other case—one month.

(*b*) On the completion of the examination of the translations, but not before, and provided that the translations have been properly done and accepted, the Advocate preparing the Paper-book shall be entitled to withdraw the amount due to him for such translations.

39. (*a*) Translations of the Appellant's papers shall be submitted for examination within the following limits of time from the date when the deposits required by Rule 22(*a*) above are made by the Appellant:—

In cases exceeding 5,000 but less than 10,000 vernacular words—one month;

In cases exceeding 10,000 vernacular words—two months;

In cases less than 5,000 vernacular words—three weeks.

(*c*) On the Paper-books being filed, they shall be taxed, and it will be the duty of the Taxing Officer to see that they have been prepared in accordance with these Rules.

(*d*) When the Taxing Officer is satisfied that the Paper-book has been properly prepared, he shall certify accordingly, and upon such certificate being granted, but not before, the balance of the amount due to the Advocate concerned shall be paid to him on application: Provided that the Registrar may, in any proper case, pay the printer's fees to the printer.

40. It shall be the duty of the examiners of Translations to report through the Taxing Officer to the Registrar any case in which the translations have been carelessly, negligently, or imperfectly done, and it shall be the duty of the Taxing Officer to report to the Registrar any case in which the preparation of any other portion of the Paper-book has been carelessly, negligently, or imperfectly done. The Registrar, if he thinks fit, will report any such matter to the Court, who may take action under the proviso to Rule 35, and may either in addition to, or without taking such action, direct that the whole or any portion of such funds as are lying in the Court to the credit of the account of the Paper-book concerned be withheld from the Advocate in question, and may pass orders for the disposal of the funds so withheld.

41. When a case is ready for hearing, the Officer in charge of the Judicial Department shall furnish the Advocates engaged on either side with the copies to which they are entitled under Rule 49 or Rule 53. The issue of the Paper-books to the Advocates will be notice to them that the case is ready for hearing.

42. The endorsement on every Paper-book prepared for the use of the High Court at the hearing of the Appeal shall furnish the following information:—

44. The supplementary Paper-book after the receipt of finding of a lower Court in a case referred under Order XLI, Rules 25 and 27, Civil Procedure Code, shall be governed by the Rules of this Chapter.

45. Notwithstanding anything contained in these Rules, the Registrar may, upon application made to him, direct that, in Appeals below Rs. 5,000 in value in which if Parts I and II of the Paper-book were printed, the total number of pages contained in the Paper-book would be 25 or less, 12 typewritten copies of the Paper-book shall be prepared at the cost of the parties. In such cases, the Appellant and the Respondent, if the latter enters appearance, shall be entitled to have, free of charge, as many copies of the Paper-book, not exceeding four on either side, as they may have Advocates engaged in the Appeal. In any case, they shall each be entitled to two copies. Additional copies over and above those which may be supplied to the parties free of charge under this rule shall be charged for.

B.—Appeals from Original Decrees valued under Rs. 10,000.

46. (1) Paper-books in Appeals valued under Rs. 10,000 shall be prepared entirely in the office of the Advocate for the Appellant and the Advocate concerned will be free to print his Paper-book in any press he chooses whether such press be on the list referred to in Rule 54 or not, but the Advocate will be responsible to the Court that the Paper-book has been prepared and printed with due care and diligence. Bad work on the part of the press will bring the Advocate concerned within the mischief of the proviso to Rule 35.

(2) The examination of translations shall be done on the fee system by a panel of Examiners formed for the purpose from the practising Advocates of the Court (to be known as the "Below" panel), a list of Advocates forming such panel being maintained in the office of the Court from which the Respondent will select an Examiner for examining the translations made by the Appellant's Advocate.

Provided—

(a) That if the Respondent fails to enter appearance by the time the Appellant submits his translation for examination he shall lose his privilege to select the Examiner, and the translation shall be examined by an Examiner from the "Below" panel to be selected by the Registrar;

(b) That where it appears to the Registrar that a particular Examiner is overworked and another is underworked; it shall be open to the Registrar to call for a fresh nomination or to direct that the work be done by some other Advocate on the panel;

(c) That if the Advocate for the Respondent is on the panel of Examiners, it shall not be competent for him to nominate himself;

(d) That where two or more Advocates appear for one Respondent or set of Respondents and select different Examiners the nomination by any one of such Advocates first received by the office should prevail and that, subject to that condition, the nomination by one of the Advocates appearing for the principal Respondent should have preference over the nomination by the Proforma Respondent.

(3) The Paper-books must be prepared within the period specified in Rule 39 but in calculating the said period the time actually taken in examining the translation shall be deducted.

47. The estimate for the preparation of the Paper-books in such Appeals shall state separately the cost of translating, editing, printing, etc., at the following rates:—

(*g*) Printing fee for 24 copies (ordinary matter with marginal notes)—actual cost, not exceeding Re. 1-2 per page; tabular matter—actual cost;

(*h*) Taxing the Paper-book costs at annas two per page.

Note (*1*).—The above rates are liable to alteration.

(*2*) The charge for editing includes the charge for Indexing, if the Paper-book is printed, and that for stationery if Paper-book is type-written.

(*3*) If the document to be translated is in any language other than the vernacular of Bengal and Assam, the rates prescribed by Rule 3A and the note thereunder in Chapter XII will apply.

(*4*) Each item of cost in the preparation of the Paper-book at the rates specified above should be calculated to the nearest anna (fraction below half an anna being omitted and half an anna or over being reckoned as one anna).

The entire cost estimated as above shall be deposited with the Accountant of the Court and from such deposit the Court's office will keep the undertaking Advocate supplied with funds to carry on the work of the preparation of the Paper-book. When the Paper-book is finally prepared the cost shall be taxed under the direction of the Registrar.

48. The Paper-books for the use of the High Court in such Appeals shall be printed and edited in accordance with the following directions:—

(*i*) The printed Paper-book shall consist of two parts in the same volume, where practicable, viz., Part I and Part II. Part I shall contain the record of the proceedings in the lower Court, and shall include all the papers mentioned in Rule 11. These should be printed strictly in chronological order, that is, in the same order as the Index, Part II shall contain the exhibits and documents relevant to the subject-matter of the appeal which should be arranged in the manner prescribed in Rule 15, each document to show its exhibit mark and whether it is a plaintiff's or defendant's document (unless this is clear from the exhibit mark). Each Part should be paged at the foot of each page. The heading to each document should consist of the number of exhibit mark and the description of the document in the Index with the date, and the corresponding English date must be given if the document bears any other date.

(*ii*) The Index of Part I shall be in chronological order and shall be placed at the beginning of the volume. Part II shall have two Indices, one in chronological order and the other in order of the exhibit marks. These Indices should be placed immediately after the Index to Part I. The documents in Part I should be numbered consecutively, while those in Part II should not be numbered apart from the exhibit mark. The Index should contain a correct and full description of each document and reference to the pages in the printed Paper-book. Whenever any document included in Part I or Part II of the Paper-book is dated according to Bengali fashion, the corresponding English date of such document must be entered in the Index.

(*iii*) All papers which are not in English shall be translated into that language. Such translation and the original English papers shall

be arranged and printed in Parts I and II in the order prescribed by the first sub-clause of this Rule.

(*iv*) Maps forming part of a Paper-book shall be included in the Index, but shall not be bound up with the other papers in the Paper-book. Such maps shall be drawn or printed on durable paper and they shall form a separate packet with a separate list.

Translations of vernacular phrases or figures that form part of a map must be submitted on a correct tracing of the map in question.

(*v*) Each document shall have a marginal note which is to be repeated on each page over which the document extends, viz.:—

(*a*) The short name of the Court shall first appear,

(*b*) The marginal note of the document shall then appear consisting of the number and description of the document in the Indices with the date except in the case of oral evidence,

(*c*) In the case of oral evidence "plaintiff's evidence" or "defendant's evidence" shall appear beneath the name of the Court and then the marginal note consisting of the number in the Indices and the witness's name with "examination", "cross-examination" or "re-examination" as the case may be.

49. Twenty-four copies of the Paper-book shall ordinarily be printed by the Appellant's Advocate, and filed in the office of the Court. On the application of either party, the Registrar may direct a larger number to be printed. In any case, 10 copies shall be retained for use in the High Court. The service of Paper-books on the parties under Rule 41 will be regulated as follows:—

To the Appellants—Three copies, or one copy for the use of each Advocate who has appeared, whichever is more;

To the Respondents—One copy only for the use of the Advocate or all the Advocates, who has, or have, appeared for each set of Respondents;

Subject to a maximum of seven copies on either side if 24 copies have been printed. If on this basis, less than 14 copies have been distributed between both sides, additional copies up to that number may be supplied for use at the hearing on application to the Officer in charge of the Judicial Department; but the latter should, if possible, retain copies for such of the Respondents who may still enter appearance in the Appeal.

C.—Appeals from Original Decrees valued at Rs. 10,000 or over.

50. Paper-books in all Appeals valued at Rs. 10,000 or over shall be prepared entirely in the Court's office subject to the condition that only translations shall be made by the Appellant's Advocate, the examination of such translations being done on the fee system by a separate panel of Examiners (to be known as the "Above" panel) appointed by the Court for this purpose.

Such Paper-books must be prepared within the period specified in Rule 39. Delay on the part of Editors and Examiners of Translations will be no excuse for extending the time. Such delays will be reported to the Registrar for necessary orders.

51. The estimate for the preparation of the Paper-books in such Appeals shall be prepared in accordance with the particulars in Rule 47 above, except that—

(*i*) For "eight annas" in clause (*e*) should be read "ten annas";

(*ii*) For "24 copies" in clause (*g*) should be read "64 copies";

(*iii*) For "Re. 1-2 per page" in clause (*g*) should be read "Re. 1-3 per page";

(*iv*) For "annas two per page" in clause (*h*) should be read "anna one per page".

The entire estimated cost shall be deposited with the Accountant of the Court and from such deposit the Court's office will keep the undertaking Advocate supplied with funds to carry on the work of preparation of the Paper-book. When the Paper-book is prepared and filed it shall be finally taxed by the Registrar.

52. Paper-books for the use of the High Court in such Appeals shall be printed and edited in accordance with the directions in Rule 48 above, with the additional direction that the printing of each separate document and exhibit shall begin on a separate sheet.

53. (a) There shall ordinarily be printed and filed in the Court's office 64 copies of the Paper-book, 24 copies of which shall be bound copies for the use of the High Court and 40 unbound copies, the latter being filed in a sealed cover and kept in safe custody in the Paper-Book Department for use in the event of a Privy Council Appeal being filed. Provided that the Registrar may, when necessary, direct a larger number of Paper-books to be printed.

(b) Of the 24 bound copies 10 copies shall be retained for the use of the Court and the remaining 14 copies distributed to the Appellant and the Respondent in the proportion laid down in Rule 49.

54. The printing of Paper-books in such cases will be done only by the presses approved by the Court a list of which shall be maintained in the Court's office. The Advocate concerned will be free to select any press from this approved list of presses, but instances of indifferent work, delay, etc., in the printing of Paper-books by any such press shall be brought immediately to the notice of the Registrar, who may direct the removal of the press or presses concerned from the list or pass such order or orders as to him seem proper.

D.—Analogous Appeals from Original Decrees and Orders, some valued under, and some at or over, Rs. 10,000.

55. In analogous Appeals from Original Decrees and Orders some of which are valued below and some at Rs. 10,000 or above, all the Appeals shall be treated as Appeals valued at Rs. 10,000 or above, for the purpose of the preparation of the Paper-books, unless on a verified petition duly filed, the Advocate for any party obtains orders of the Registrar for relaxing the Rule in any particular case.

PART III.

Appeals from Appellate Decrees.

56. The Paper-books in all Appeals from Appellate Decree will consist of the following papers:—

(a) The judgment of the first Court;

(b) The judgment of the lower appellate Court;

(c) Any judgment or orders of remand passed in the case either by the lower appellate Court in Appeal or by the High Court on Second Appeal;

(d) The Memorandum of Second Appeal;

(e) A front leaf containing the number of the cause; the names of the Judges of the two Courts below; the names of the parties and of their Advocates; the date of the institution of the suit; the date of the judgment of the first Court; the date of the judgment of the lower appellate Court; the date on which the Appeal was filed and the date on which the Appeal was decided.

Note (1).—The Advocate for the Appellant shall, before the hearing of the Appeal, serve on the Advocate for the Respondent a typewritten copy or a typewritten copy of the translation as the case may be, of any document, other than those mentioned above, which he considers necessary for the decision of the Appeal, and shall also provide two such typewritten copies, or typewritten copies of the translation, for the use of the Division Court. If he fails to do so, he shall not refer to such document at the hearing, and no adjournment of the hearing of the Appeal will be granted on this account, unless the Court otherwise directs.

Note (2).—If, in any Second Appeal, the Bench at the time of the preliminary hearing under Order XLI, Rule 11, Civil Procedure Code, or the Advocate for the Appellant desires that translations of the plaints or written statements should be prepared, the Advocate for the Appellant shall, before the hearing of the Appeal, serve on the Advocate for the Respondent typewritten copies of the translations of such plaints or written statements, and shall also provide two such typewritten copies for the use of the Division Court.

57. Except as otherwise provided in these Rules, in each case of Second Appeal, including Appeals under Chapter X of the Bengal Tenancy Act, the Registrar shall cause to be prepared at the cost of the parties six typewritten copies of the Paper-book as aforesaid.

58. In the case of Second Appeals not exceeding Rs. 50 in value, other than Appeals under Chapter X of the Bengal Tenancy Act, and in Second Appeals from Orders (including orders under Section 47, Civil Prosecure Code) irrespective of the value of such Appeals, and in Appeals from Remand Orders under Order XLI, Rule 23, Civil Procedure Code, in which the valuation of the Appeal does not exceed Rs. 50, the Registrar shall cause to be prepared three typewritten copies of the Paper-book as aforesaid for the use of the Judges and the Advocate for the Deputy Registrar, if any, and no charge shall be levied from the parties on account of the preparation of such Paper-books. If there is no Advocate on behalf of the Deputy Registrar representing any minor, then the spare copy of the Paper-book (third copy) may be sold at Rs. 3, if the Appellant or the Respondent desires to purchase the same.

59. In the case of Appeals from Appellate Decrees and Appeals from Remand Orders under Chapter XLI, Rule 23, Civil Procedure Code, in which the valuation of the Appeal exceeds Rs. 50 and in all Appeals under Chapter X of the Bengal Tenancy Act (irrespective of value), the Appellant shall within 21 days from the date of the registration of the Appeal, deposit the sum of Rs. 10. Upon registration each Appeal shall be entered in a list in form No. M50 of the Appendix which will be displayed outside the Appeal Section concerned and a copy of this list shall be sent to the Bar Association's Library. This shall constitute sufficient notice of the date of registration. The Respondent shall at the time of entering appearance deposit the sum of Rs. 5 in full payment of the cost of the preparation of typewritten Paper-books.

Upon the Appellant depositing the sum of Rs. 10 aforesaid, the Registrar shall cause to be prepared six typewritten copies of the Paper-book in accordance with Rule 56 in the Court's office. Two of these six copies will be for the use of the Court, two for the Appellant (to be used both at the preliminary hearing and at the final hearing), one for the Respondent and one spare. After admission, as the Respondent or separate sets of Respondents enter appearance through different Advocates, they will be charged at the rate of Rs. 5 for each copy of Paper-book supplied. The Appellant shall supply a copy of the Paper-book to the Advocate for the Deputy Registrar, if there is a minor Respondent represented by the latter, out of the two copies supplied to him as aforesaid, or by purchasing an additional copy at the rate of Rs. 5.

Provided that in Appeals from Appellate Decrees in which there was an order of remand passed by the lower appellate Court and in which the previous judgment (original and appellate) will have to be included in the Paper-book, the charge for the Paper-book to the Appellant will be Rs. 12 instead of Rs. 10 and to the Respondent Rs. 6 instead of Rs. 5 as in other cases.

No refund of the deposit mentioned above will be allowed on the ground that Paper-books were not ready at the hearing of the Appeal under Order XLI, Rule 11, Civil Procedure Code, in cases fixed by the Court, on the application of the Appellant, before the Appeal has been placed on the Weekly List.

This Rule shall also govern all cases in which deposits have been made before the date it comes into force.

60. In case of batches of analogous Appeals of the classes mentioned in Rule 59 (*i.e.*, all Appeals from Appellate Decrees, Appeals from Remand Orders under Order XLI, Rule 23, Civil Procedure Code, in which the valuation of the Appeal exceeds Rs. 50 and all Appeals under Chapter X of the Bengal Tenancy Act), the Appellant shall, within 21 days from the registration of the Appeal, deposit in full payment of the cost of preparation of typewritten Paper-books a sum of Rs. 10 for the first Appeal, the charge for the analogous Appeals being Re. 1-8 per Appeal up to four such Appeals and annas 12 for every such Appeal in excess of four, the additional charge not exceeding Rs. 10 in any case. Upon registration each Appeal shall be entered in a list which shall be displayed outside the Appeal Section concerned and a copy of this list shall be sent to the Bar Association's Library. This shall constitute sufficient notice of the date of registration.

In such cases the Respondent on entering appearance shall deposit Rs. 5 for the First Appeal, and half the charge prescribed for the Appellant in respect of the analogous Appeals, the additional charge not exceeding Rs. 5 in any case. The principle of this Rule will apply to each set of Respondents who enter appearance through separate Advocates.

Note.—In a case in which some of the analogous Appeals are above Rs. 50 in value and some below Rs. 50 in value, the principle of the above Rule shall apply to the whole batch.

61. Where analogous Appeals have been presented in separate batches each batch of such Appeals presented by the same Appellant, or by the same Advocate representing different Appellants, shall be considered as a separate batch of analogous Appeals and the cost of preparation of the Paper-book shall be deposited for each batch of such Appeals separately calculated according to the provisions of Rule 60.

In the case of single Appeals presented by different Advocates, or Appellants in person, such cost shall be deposited as provided in Rule 59 for each such separate Appeal, notwithstanding that such Appeals may be analogous to others.

62. If in a Second Appeal above Rs. 50 in value an Advocate desires to move the Court for an order for stay of execution in the lower Court under Order XLI, Rule 5, Civil Procedure Code, on the same day that an Appeal is filed, and if the Appeal is in order and is accepted by the Stamp Reporter, the Advocate shall provide a copy of the Memorandum of Appeal with annexures for the use of the 2nd Judge at the preliminary hearing. If such Appeal is admitted under Order XLI, Rule 11, Civil Procedure Code, the sum of Rs. 10 or Rs. 12 shall be deposited (as required by Rule 59), but if the Appeal is dismissed no such deposit need be made.

63. No work in the matter of the preparation of the Paper-book shall be undertaken until the deposit required under the provisions of Rule 59, has been made by the Appellant, unless the Registrar shall otherwise direct.

64. In case of the Appellant or the Respondent failing to make the necessary deposit under Rule 59, the Officer in charge of the Judicial Department shall lay the matter before the Registrar who may at once cause the Appeal to be set down before the Division Court for orders. If the Appellant or the Respondent fails to satisfy the Court as to the delay, the Appeal may be dismissed for want of prosecution, or may be decreed *ex parte*, as the case may be, or the Court may pass such other order as it may deem proper.

65. Additional Paper-books over and above those which may be supplied to the parties under Rule 59 shall be charged for at the rate of Rs. 5 per copy.

66. When a case is ready for hearing the Officer in charge of the Judicial Department shall include it on the General List in form No. M28 of the Appendix, a copy of which shall be displayed on the notice board of the Appeal Section concerned, and a copy sent to the Bar Association's Library for information. This will be considered as sufficient notice to the Advocate concerned that the case is ready for hearing.

PART IV.

Appeals from Orders.

67. The Rules for the preparation of Paper-books in Appeals from Original Decrees valued under Rs. 10,000 or valued at Rs. 10,000 or more, shall apply, respectively, to every First Appeal from an Order of the like value (including an Order under Section 47, Civil Procedure Code), passed by a Subordinate Court not being an Order under

(b) The application or proceeding on which the order appealed from was passed;

(c) The petition, if any, filed in answer;

(d) The order appealed from;

(a) The evidence, oral or documentary, which may have been taken or put in with reference to the application or proceeding, and which is necessary for the decision of the Appeal;

(b) Any other papers to which reference may be necessary for the decision of the Appeal.

(B) That the Appellant's list shall be delivered to the Officer in charge of the Judicial Department within one week after the service of notice of the arrival of the record.

68. (1) In Second Appeals from Orders (including Orders under Section 47, Civil Procedure Code), irrespective of the value of such Appeals, and in Appeals from Remand Orders under Order XLI, Rule 23 of the same Code, in which the valuation of the Appeal does not exceed Rs. 50, the Paper-book shall consist of—

(a) The judgment or judgments of the lower Court or Courts;

(b) The Memorandum of Appeal to the High Court;

(2) The Registrar shall cause three typewritten copies of the Paper-book, as aforesaid, to be prepared.

(3) No charge shall be levied from the parties for the preparation of the Paper-book.

69. In Appeals from Remand Orders under Order XLI, Rule 23, Civil Procedure Code, in which the valuation of the Appeal exceeds Rs. 50 the Paper-book shall be prepared and supplied to the parties in accordance with the Rules relating to the preparation of Paper-books in Appeals from Appellate Decrees in which the valuation of the Appeal exceeds Rs. 50.

PART V.

Full Bench References.

70. No charge shall be levied from the parties for the preparation of the Paper-books in Full Bench Reference cases.

71. In every case 30 copies of the referring judgment shall be printed. The additional number of copies, if any, of the Paper-book in the Appeal which will be required for the hearing of the reference will be determined by the Registrar upon a report from the office as to the number already available.

72. Parties will not be entitled to any free copies of the referring judgment. Copies may, however, be purchased by the parties or their Advocates (including copies for the Advocates for the Deputy Registrar in the case of minor Respondents) at the rate of six annas per page subject to a maximum charge of Rs. 7-8 for each case. If additional copies of printed Paper-books in the Appeal are required by the parties for the Full Bench Reference they shall be purchased at the above rate, the maximum of Rs. 7-8 being applicable to each volume of such Paper-book.

Chittagong Division.

Chittagong, the 28th June 1934.

Rules for the guidance of private candidates for the Matriculation Examination of 1936.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

1. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school-masters.

2. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned below:—

Comilla Zilla School, Noakhali R. K. Zilla School, Chittagong Collegiate School and Rangamati High English School.

Date of examination—22nd, 23rd, 25th, 26th and 27th November 1935.

Female candidates and teachers of schools recognised by the Calcutta University, or any other University or any Board of Secondary Education in India are not required to pass the test examination for private candidates held by the Inspector of Schools, Chittagong Division.

3. Private candidates offering hygiene as one of their subjects need not obtain the previous permission of University for that purpose. They will be required to satisfy the Inspector of Schools that they have undergone a course of training in the subject. For this purpose they should submit to the Divisional Inspector of Schools, along with their applications for permission to appear at the test examination, certificates of training in it from a recognised medical practitioner or from a recognised teacher in hygiene.

4. Each private student will pay a fee of Rs. 5 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the headmaster of the institution in which he appears.

5. Application for permission to appear at the Test Examination must be sent in time in duplicate in the enclosed form so as to reach this office not later than the 15th November 1935.

N. B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1934 and then left the school can, under no circumstances, be allowed to appear at the Test Examination.

6. The Inspector on being satisfied will grant necessary permission and return the application, which will then be the candidate's passport for admission to the Test Examination.

7. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear, at least 15 days before the date of that examination. The headmaster will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

8. The headmasters of the institutions named in paragraph 2 above should direct private candidates who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their presence. They will then grant the necessary certificate and forward the applications to the Inspector for countersignature, after which they will be returned to the headmasters for delivery to the candidates concerned.

9. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

10. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

11. The Matriculation Examination will be held in March 1936, the exact dates of which will be notified by the University.

12. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

RESOLUTION.

(GENERAL.)

The 31st August 1935.

No. 45-G.-(I.E.R.).—The international scheme for the restriction of the supply of tea to world markets, which came into operation in 1933, is based on the agreement of three important tea producing countries, namely India, Ceylon and the Netherlands East Indies to limit by governmental action the exports of tea from their respective territories. In announcing their readiness to support the international scheme the Government of India made, however, one important reservation. In their opinion exports of tea across India's land frontiers were unlikely to prove a menace to the success of the scheme, and they therefore undertook to control exports of tea from India by sea only.

At the same time they agreed to watch the situation carefully and to take action should it appear that the land frontiers were being used to defeat the purposes of the international scheme.

2. Early in 1934 representations were received on behalf of the tea interests in Ceylon and the Netherlands East Indies that India's land frontiers were in fact being used to evade the restriction scheme, and that the tea market in Iran was being flooded by the abnormal supplies exported across the frontier between India and Iran. The following statistics will show that these representations were well founded:—

Total transfrontier exports of tea.

(In million pounds.)

Destination.	1931-32.	1932-33.	1933-34.	1934-35.
Afghanistan ..	3·2	2·7	4·2	2·5
Tibet, Nepal, etc.	·8	1·5	1·1	·6
Persia ..	·2	1·3	5·6	12·4

The shares of Indian and foreign tea in the total exports given above are as follows:—

Transfrontier exports of Indian tea.

(In million pounds.)

Destination.	1931-32.	1932-33.	1933-34.	1934-35.
Afghanistan ..	·9	·2	·7	1·1
Tibet, Nepal, etc.	·4	1·4	1·4	·5
Persia ..	1·9	1·3	5·5	12·4

Transfrontier exports of foreign tea.

(In million pounds.)

Destination.	1931-32.	1932-33.	1933-34.	1934-35.
Afghanistan ..	2·3	2·5	3·5	1·4
Tibet, Nepal, etc.	·4	·1	·05	·07
Persia ..	·05	·01	·02	·01

While exports to Afghanistan, Tibet and Nepal have shown no abnormal variations, those to Iran have increased to a very significant extent.

3. In these circumstances the Government of India, while desiring in no way to interfere with the normal trade between India and Iran, have felt it incumbent upon them to take steps to prevent the flooding of the Iranian tea market by uncontrolled Indian exports at the expense of the other partners to the international scheme. For this purpose they have decided to apply to exports across the Iranian frontier the same procedure as is in force in respect of exports by sea and have accordingly issued Government of India, Finance Department (Central Revenues), Notification No. 44-Customs, dated the 31st August 1935, which restricts exports of tea overland to Iran to consignments covered by export licenses issued by the Indian Tea Licensing Committee.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 3430L.C.—7th September, 1935.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 19th August, 1935, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL TENANCY (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Bengal Tenancy Act, 1885.

WHEREAS it is expedient further to amend the Bengal Tenancy Act, in the manner hereinafter appearing so as to partition the occupancy and to remove the hardships of the co-tenants, by fixing their respective liabilities ; VIII of 1885.

It is hereby enacted as follows :—

Short title.

1. (*1*) This Act may be called the Bengal Tenancy (Amendment) Act, 1935.

Commencement.

(*2*) It shall come into force on such date as the Local Government may, by notification in the *Calcutta Gazette*, appoint.

Insertion of new section 26K in Act VIII of 1885.

2. (*1*) After section 26J of the Bengal Tenancy Act, 1885 (hereinafter referred to as the said Act), the following section shall be added :—

Partition of occupancy holding by co-tenants.

"26K. (*a*) Co-tenants of any occupancy holding shall have the right to partition the land with separate liability for rent in respect of each separated share.

(*b*) On the application by a co-tenant for assessment of his proportionate share of rent, the landlord shall be bound to grant the applications and thereafter the liablity of such co-tenants or tenants shall be limited to the rent assessed for his separate share."

STATEMENT OF OBJECTS AND REASONS.

The system of joint responsibilities for the payment of rents by co-tenants helped many dishonest agents of landlords to ruin the poor tenants by grabbing their lands.

In the interest of justice therefore liability of each tenant shall be fixed to save them from ruination.

No. 3432L.C.—7th September, 1935.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 19th August, 1935, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL MUNICIPAL (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Bengal Municipal Act, 1932.

WHEREAS it is expedient further to amend the Bengal Municipal Act, 1932, in the manner hereinafter appearing so as to extend the powers of the chairman of a municipality to make occupiers also liable for municipal rates, and to make better provision for the quick despatch of business in the appeal committees of the municipality;

Ben. Act XV of 1932.

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act;

5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Municipal (Amendment) Act, 1935.

Commencement.

2. It shall come into force on such date as the Local Government may, by notification in the *Calcutta Gazette*, appoint.

Amendment of section 52.

3. In section 52, delete the words:—

(*1*) "The Commissioners at a meeting specially convened for the purpose or" from the beginning.

(*2*) Delete the second paragraph.

Amendment of section 103.

4. For sub-section (*4*) of section 103, substitute the following:—

"Notwithstanding anything contained in the Indian Registration Act, 1908, or any rules made thereunder, the registering officer shall, on the requisition of the chairman made in writing and under the common seal of the municipality, register a document executed by the chairman or a member of the municipality on behalf of the municipality without requiring the presence of the chairman or the member concerned at the registration office."

XVI of 1908.

Amendment of section 132.

5. In section 132 add the following words at the end:—

"and the occupier of the same, each being liable to pay one-half of the consolidated rate"

Amendment of section 149.

6. In sub-section (*1*) of section 149 in the third line substitute "four" in place of "two".

STATEMENT OF OBJECTS AND REASONS.

It is desirable that the privilege granted to the chairman of a district board in the matter of registration of documents should also be extended to the chairman of a municipality. The curtailment of the power of the chairman of a municipality introduced in section 52 should be repealed and the provision of section 45 of the old Act should be restored with a view to ensure the dignity and prestige of the chairman. It is equitable that one-half of the consolidated rate for a holding should be paid by the occupier. This will also ensure better collection of the municipal rates. The appeal committee of a municipality should be enlarged to consist of five members so that the absence of a single member may not impede the work of the committee resulting in delays and inconvenience to the ratepayers.

NOTIFICATION.

No. 3433L.C.—7th September, 1935.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 19th August, 1935, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL VILLAGE SELF-GOVERNMENT (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Village Self-Government Act, 1919.

WHEREAS it is expedient further to amend the Bengal Village Self-Government Act, 1919, in the manner hereinafter appearing; (Ben. Act V of 1919.)

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act; (5 & 6 Geo. V., c. 61; 6 & 7 Geo. V., c. 37; 9 & 10 Geo. V., c. 101.)

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Village Self-Government (Amendment) Act, 1935.

Amendment of section 72 of Bengal Act V of 1919.

2. After sub-section (*2*) of section 72 the following shall be added namely:—

"A union bench may allow a convicted person time if he prays for it for the paying up of his fines with a suitable person as security."

Amendment of section 74.

3. After section 74 (*c*), the following clause shall be added namely:—

"(*d*) for arrears of rent."

Amendment of section 75.

4. In sub-section (*5*) of section 75 in lines 2 and 3 the words, "or recovery of rent" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

In many villages of Bengal power has been bestowed upon the union benches and courts to try cases.

If the union bench orders in accordance with power which the union bench possesses to imprison one guilty person for 7 days in case of non-realisation of fines (which is extended up to Rs. 25), the person may pray for time with suitable security for paying up his fines. As there is no such room in the Village Self-Government Act, 1919, the Bench cannot let the accused go. So it is full of inconveniences for the parties. A new provision should be added to the section 72 for the good of the parties. The power for letting the guilty person go with a suitable security should be bestowed upon and added to the aforesaid clause of the Village Self-Government Act.

In many places of Bengal the zemindars and the tenants-in-chief have rents from the tenants and sub-tenants which in some places do not exceed more than Rs. 5. Sometimes it comes to a lower scale of below one rupee per year. Where there arises a necessity of a legal suit in the munsifs' courts for arrears of 3 or 4 years, it does not go more than Rs. 25, together with penalty. This process makes both the parties losers. So the parties like to have these suits filed in the union courts. But there is no provision in the Village Self-Government Act for this sort of rent suits of such amounts. So this Bill provides for the removal of unnecessary expenses in the civil court for rent suits arising out of small amounts not paid for a few years.

No. 3435L.C.—7th September, 1935.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 19th August, 1935, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE CALCUTTA MUNICIPAL (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Calcutta Municipal Act, 1923.

WHEREAS it is expedient further to amend the Calcutta Municipal Act, 1923, in the manner hereinafter appearing ; (Bengal Act III of 1923.)

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Calcutta Municipal (Amendment) Act, 1935.

Amendment of sec. 20 of Ben. Act III of 1923.

2. After sub-section (2) of section 20, the following proviso shall be added, namely :—

Provided that any person shall be entitled to vote or stand for election as a Councillor under this Act who possesses the following educational qualifications:—

(*a*) the Entrance or Matriculation Examination of the Calcutta University, or

(*b*) the High School Examination or High Madrassah Examination of the Board of Intermediate and Secondary Education, Dacca, or

(*c*) the School Final Examination, Science side, conducted by the School Final Examination Board, Science side, or

(*d*) the Cambridge Junior Examination under the European School Code, or

(*e*) the Higher Grade School Final Examination under the European School Code, or

(*f*) the Title Examination conducted by the Saraswat Samaj, Dacca, or

(*g*) the Title Examination conducted by the Calcutta Sanskrit Association (or Calcutta Sanskrit Board as it was previously called) or

(*h*) the Fazil Examination conducted by the Board of Central Madrassah Examinations, or

(*i*) the Final Examination of the First Grade Training or Normal Schools in Bengal, or

(*j*) the Final Examination of the Government School of Art.

STATEMENT OF OBJECTS AND REASONS.

The right to vote at the elections of the Bengal Legislative Assembly under the new constitution has been given to persons having certain educational qualifications. It seems inconsistent that the citizens of Calcutta having the aforesaid qualifications should be eligible to vote in the Legislative Assembly elections but would not be entitled to do so in the case of the elections of the Calcutta Corporation itself. Educational qualifications have also been recognised in mufassal municipalities under the Bengal Municipal Act, 1932. This Bill has been introduced to remove the aforesaid inconsistency.

Ben. Act. III of 1923.

STATEMENT OF OBJECTS AND REASONS.

The appointment of the principal officers for limited terms has led to a state of things which to say the least of it is undesirable in the interests of the ratepayers.

The Bill aims at giving these officers security of tenure as well as freedom from needless interference in carrying on their duties.

BILL

further to amend the Calcutta Municipal Act, 1923.

WHEREAS it is expedient further to amend the Calcutta Municipal Act, 1923 (hereinafter referred to as the said Act) in the manner hereinafter appearing ; (Ben. Act III of 1923.)

It is hereby enacted as follows :—

Short title. **1.** This Act may be called the Calcutta Municipal (Amendment) Act, 1935.

Commencement. **2.** It shall come into force at once.

Amendment to Sch. VI, cl. 1, item 17. **3.** In Schedule VI, clause 1 of the said Act, in item No. 17 of the said clause in column 2, after the words " in respect of whose income, income-tax " the words " on an income of not less than Rs. 2,000 " shall be added.

Amendment to Sch. VI, cl. 1, item 36. **5.** In Schedule VI, clause 1 of the said Act, in item No. 36, column 2 of the said clause, for the words " by whom no income-tax is payable " the following words be substituted, namely :—

" By whom income-tax is not payable on an income of Rs. 2,000 or more."

Amendment to Sch. VI, cl. 1, item 44. **6.** In Schedule VI, clause 1 of the said Act, in item No. 44, column 2 of the said clause for the words, " by whom no income-tax is payable " the following words shall be substituted, namely :—

" By whom income-tax is not payable on an income of Rs. 2,000 or more."

STATEMENT OF OBJECTS AND REASONS.

In Schedule VI of the Calcutta Municipal Act, 1923, which provides for license fees leviable by the Corporation, it was provided that license fees to be paid by some professional men should be Rs. 50 for those who pay income-tax and Rs. 20 for those who do not pay income-tax.

At the time when the Act was passed income-tax was not payable on incomes below Rs. 2,000. The Legislature obviously thought that the imposition of a license fee of Rs. 50 on those whose income was less than Rs. 2,000 would cause them great hardship.

Since then by temporary Acts of the Indian Legislature, the taxable income has been reduced, with the result that persons having an income of less than two thousand rupees have automatically become liable to pay double the license fees which they had paid before.

This is felt as a great burden by junior men in the profession and a burden which the Bengal Legislature never intended to impose on them. It would further seem to be undesirable that the fee leviable by the Corporation under a Bengal Act should be subject to periodical variations by the Acts of legislature whose action would be dictated by considerations which have no relation to the question of fees leviable by the Corporation.

The amendments proposed by this Bill seeks to give effect to the original intentions of the legislature which have been defeated by adventitious circumstances.

Consolidated statement for Bengal, Bihar and Orissa and Assam.

Area.—The revised estimated area for the three provinces is 1,947,000 acres, a decrease of 723,100 acres as compared with the revised final forecast for 1934. The total increase as compared with the acreage in the Preliminary Forecast for 1935, is due to revision in the estimates for the three Provinces.

Yield.—It is estimated that the crop will yield 6,396,700 bales of jute, i.e., less than last year's total (revised) by 2,128,700 bales.

The consolidated returns are as follows:—

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal, 1935.

[NOTE.—On an average of the five years ending 1933-34, the area under jute in Bengal, to which this forecast relates, represents some 86·1 per cent. of the total area under jute in British India.]

Season.—After the issue of the Preliminary Forecast conditions were generally favourable for normal growth and development in Eastern Bengal, except in Tippera and Noakhali, where, on the high lands, drought affected the crop. In Northern Bengal conditions were favourable except in the northern areas of Rangpur, Dinajpur, and in Malda, Jalpaiguri, Siliguri and Cooch Behar, where excessive rains prevented proper weeding and reduced the yield. In Western Bengal drought affected the crop. Both in Northern Bengal and Western Bengal sowings were not completed at the time of the Preliminary Forecast in certain districts; and the areas have been revised. In Tippera and Faridpur districts, the areas in the previous year were increased after a close examination of the figures by the Collectors. Owing to the shortage of rainfall and late rise in the rivers harvesting was delayed in practically all districts in the Province.

Condition of the Crop.—The condition of the crop is satisfactory. It is anticipated that floods in Pabna and part of the Mymensingh and Dacca districts may affect the quality of the crop.

Area of the Crop.—The area under jute is estimated to be 1,689,000 acres as against 2,347,700 acres (revised) in 1934.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals which remain as follows:—

		Bales per acre.
Dacca and Chittagong Divisions	...	3·7
Rajshahi Division	...	3·5
Presidency and Burdwan Divisions	...	3·2

The total outturn of the crop is estimated at 5,759,500 bales as against 7,749,500 bales (revised) last year.

Stocks.—Collectors report that, on the 30th June stocks in the hands of cultivators were very small, but it is estimated that stocks in the hands of middlemen, outside Calcutta, amount to about 10 lakhs of bales.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1935.

[NOTE.—**On an average of the five years ending 1933-34, the area under jute, to which the Bihar and Orissa forecast relates, represents about 7·3 per cent. of the total area under jute in British India.**]

Acreage.—The final district returns of the eight jute-growing districts of the province show an area under jute of 145,600 acres. Last year's estimate of the area under the crop was 173,800 acres.

Weather conditions.—In March light rain fell in the Santal Parganas, Cuttack and Balasore. There was no rain in the rest of the jute districts. The fall was below normal. In April light to moderate rain fell in Muzaffarpur, Darbhanga, Purnea, the Santal Parganas, Cuttack and Balasore except Champaran and Bhagalpur where there was no rain. The fall was below the normal everywhere except Cuttack and Balasore. In May light rain fell in all the jute districts. The fall was below the normal everywhere. In June rain fell in all the jute districts. The fall was below the normal everywhere. In July rain fell in all the jute districts. The fall was below normal everywhere except Cuttack and Balasore. The fall was heavy in Cuttack. In August rain fell in all the jute districts. The weather conditions are reported to have not been favourable in the most important jute district of Purnea and fair to good in the remaining jute-growing districts.

Outturn.—In the important jute districts of Purnea and Cuttack the outturn of the crop have been estimated at 40 and 80 per cent. of the normal respectively. Champaran reports 95 per cent., Muzaffarpur, Darbhanga, Bhagalpur, the Santal Parganas and Balasore report 83, 30, 35, 65 and 60 per cent., respectively.

I estimate that the condition factor this year will not be less than 74 per cent. of the normal. Recent enquiries about the normal outturn per acre show that the normal outturn per acre is $3\frac{1}{3}$ bales, and on this basis the gross outturn on 145,600 acres estimated to be under jute in this province comes to 355,700 bales against 447,000 bales (revised) last year. The import of jute from Nepal estimated at 25,000 bales brings the total of the province to 380,700 bales.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1935.

[NOTE.—On the average of the five years ending 1933-34, the area under jute in Assam represents some 5·5 per cent. of the total area under jute in British India.]

Season.—As indicated in the preliminary forecast the weather in the earlier part of the year was not favourable. Although these conditions changed for the better to some extent in the middle of the season considerable damage was done by heavy rains and local floods specially in the low lying areas which affected the outturn in almost all the jute-growing districts. Insects too caused slight damage in some localities.

Area.—The area under jute has been reported by the Deputy Commissioners to be 112,400 acres, as compared with last year's actual area of 148,600 acres, and this year's preliminary forecast of 102,700 acres. The areas reported in the preliminary forecast have been revised in six districts.

Outturn.—The outturn per acre has been estimated to be 65 per cent. of the normal against 58 per cent. (revised) of the last year. Taking 3·5 bales of 400 lbs. each of jute fibre as the normal yield per acre, the total produce of the province this year amounts to 256,500 bales against 303,900 bales (revised) of last year, or a decrease of 15 per cent.

Resolution on the annual progress report on the forest administration in the Presidency of Bengal, for the year ending the 31st March 1934.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Forests.

CALCUTTA, THE 2ND SEPTEMBER, 1935.

RESOLUTION—No. 1034 For.

Read—

The annual progress report on the forest administration in the Presidency of Bengal for the year ending the 31st March 1934.

Read also—

The reports of the previous three years and the Government resolutions thereon.

Mr. E. A. C. Modder was in charge of the Northern Circle from the 1st April 1933 to the 31st August 1933. He was relieved on the 1st September 1933 by Mr. E. O. Shebbeare, who held charge of the circle for the rest of the year.

Mr. J. H. Lyall officiated as Conservator of Forests, Southern Circle, up to the 25th May 1933. He made over charge of the circle to Mr. E. A. C. Modder, Conservator of Forests, Northern Circle, on the afternoon of the 25th May 1933 and proceeded on leave.

2. With a view to reducing expenditure important changes were made in the administration of the department. The post of Conservator of Forests, Southern Circle, was put in abeyance for a period of three years from the 26th May 1933, and both circles were placed in charge of one Conservator, with an amalgamated office at Alipore. Further, on the recommendation of the Retrenchment Committee, the existing Chittagong and Cox's Bazar Divisions were amalgamated into one division with two subdivisions, viz., Sadar (Chittagong) and Cox's Bazar. This reorganization took effect from the 1st July 1933.

3. *Area.*—The area of reserved forests increased from 6,478 to 6,489 square miles, the increase being due to the reservation of certain khas mahal forest areas in the Chittagong Division. The declaration of the Bhowal Forests, administered by the Court of Wards as protected forests, had the effect of increasing the area under this head from 660 square miles to 705 square miles. The area of the un-classed forests remained unaltered. As a result of these changes the total area of all forests at the end of the year under review was 10,639 square miles or 14·02 per cent. of the total area of the Presidency as against 10,583 square miles for the year 1932-33. The need for strict economy throughout the year hampered the development of communications. No new road was constructed, and the sums spent on upkeep of existing roads decreased by nearly Rs. 9,000. It is hoped that it will not be necessary to continue this form of retrenchment as the provision of communications through the forest areas is essential to their utilization.

For the same reason the total expenditure on the construction of new buildings in the two circles was Rs. 9,235 against Rs. 16,644 in the previous year. The bulk of this was spent on the construction of houses for subordinates.

4. *Working plans.*—The new working plan of the Kurseong Division was being printed during the year. The prescriptions of the sanctioned working plans were followed as far as circumstances permitted, and all deviations were properly authorised. The working plan of the Chittagong Division was due for revision but work was continued under its prescriptions.

5. The proportion of the year's outturn extracted departmentally slightly increased. A large quantity of this produce as well as of the previous year's stock remained unsold owing to trade depression. There were, however, indications of the beginning of a return of confidence, and the Utilization Officer achieved some success in finding new markets. A promising feature of the year was the establishment of the sale of several varieties of matchwood. About Rs. 30,000 worth was supplied to companies in Calcutta. It is also satisfactory to find that the Railways were beginning to obtain supplies of timber from Bengal for purposes other than that of sleepers.

Supplies of timber were sent to Bihar at greatly reduced rates for use in reconstruction of the areas devastated by the earthquake.

The value of the timber extracted by purchasers showed some decrease; but the decrease was not great, and some improvement of the timber market was noticed in the course of the year.

6. *Damage from natural causes.*—The struggle with climbers, weeds and insect-pests knows no remission. During the year under report operations against climbers had to be curtailed as a measure of economy, but the most dangerous climbers in plantations were dealt with as far as possible. The rapid westward spread of the Assam "lota" was carefully watched, and it was eradicated, so far as funds permitted, wherever it appeared on forest land.

A few small areas were lost as the result of landslips and others were washed away by rivers. Many square miles of forest are threatened by the tendency of the River Torsa to flow into the Bala Torsa. To prevent this catastrophe the department, with the co-operation of the Cooch Behar State, the Khas Mahal Department and the Bijaynagar Tea Estate undertook protective works at a cost of Rs. 8,000.

The January earthquake inflicted heavy damage. This was mainly in the hills, and in the Darjeeling Division alone the loss in roads and buildings amounted to Rs. 6,000. The Kalimpong headquarters bungalow was completely destroyed, and in the Kurseong Division the Sukna and Latpanchor bungalows were severely damaged.

7. *Revenue and expenditure.*—The revenue, expenditure and surplus are compared with those of the previous year below:—

Year.		Revenue.	Expenditure.	Surplus.
		Rs.	Rs.	Rs.
1932-33	..	15,11,717	15,08,613	3,104
1933-34	..	15,02,561	14,42,183	60,378

8. In 1932-33 the surplus had almost disappeared, and its increase during this year to over Rs. 60,000 in spite of a further decrease in the revenue is evidence of the loyal co-operation of the officers of the department in introducing economies that could not always be welcome for forest administration should not concern itself only with immediate profit: it aims equally at conserving the natural resources of the province and at storing up future wealth for future Governments to utilize. Immediate economies cannot be avoided in times of financial strain, but they are liable, unless very carefully devised, to prejudice the ultimate interests of the province.

9. *Wild animals and game.*—The number of persons killed by tigers during the year reached the high figure of 49. The sums allotted for rewards for killing tigers ran short. Every effort was made to keep the danger under control by engaging professional shikaris but they were not forthcoming in adequate numbers, as the rewards offered were insufficient to pay their expenses. The number of tigers killed, however, increased.

Ten persons were killed by wild elephants.

The work of game preservation continued with the help of the local Fishing and Shooting Associations and the game reserve in the Buxa Division afforded a sanctuary for the few specimens of rhinoceros still surviving in Bengal. Confidential information was collected regarding poachers in the neighbourhood of the reserve and a number of cases of possession of unlicensed guns and ammunition were detected by the Game Warden and by the Police. Considerable help in protecting the reserve was received from the Jaldhaka Fishing and Shooting Association, but the continual influx of unlicensed guns from Bhutan presented a difficult problem.

The thanks of the Governor in Council are due to Messrs. E. O. Shebbeare and E. A. C. Modder for their successful administration of the forest circles. His Excellency in Council also notices with pleasure the record of good work done by other officers of the department mentioned in the report.

Order—Ordered that the above resolution be published in the *Calcutta Gazette*.

Ordered also that a copy of the above resolution be forwarded to the Conservator of Forests, Bengal.

By order of the Governor in Council,

H. S. E. STEVENS,
Secy. to the Govt. of Bengal (offg.).

Resolution on the Triennial Report on the administration of the Registration Department in Bengal for the years 1932, 1933 and 1934.

GOVERNMENT OF BENGAL.

Education Department.

Registration.

CALCUTTA, THE 7TH SEPTEMBER 1935.

RESOLUTION No. 739Regn.

Minister-in-charge: The Hon'ble Khan Bahadur M. Azizul Haque.

Read—

The Triennial Report on the Administration of the Registration Department in Bengal for the years 1932, 1933 and 1934.

Khan Bahadur Shamsuddin Ahmed was in charge of the department throughout the triennium.

2. The number of registrations, which stood at 1,941,510 in 1928, fell rapidly during the succeeding years until 1933, when it reached the very low figure of 910,712. During 1934, however, it again rose to 1,035,299 which is the highest figure since 1930. This presumably reflects an improvement in general economic conditions, and is all the more gratifying when it is realised that the *ad valorem* fees on documents of small value were increased by 50 per cent. from 1st August 1933.

3. The total number of registrations during the period under review was 2,876,881 against 3,850,414 in the previous triennium, representing a decrease of 25·3 per cent., while the figures for the previous triennium had themselves shown a decrease of 33·5 per cent. as compared with the three-year period ending 1928. Compulsory registrations fell by 24·4 per cent. and optional by 15 per cent. as against 34·8 and 23·7, respectively, in the previous period. Other registrations, which include all registrations not affecting immovable property, wills and written authority to adopt decreased by 39·3 per cent. as compared with 19·2 per cent.

4. The receipts of the department during the period amounted to Rs. 59,36,095 against Rs. 81,79,875 in the previous triennium and the expenditure to Rs. 48,44,531 against Rs. 55,63,104.

5. There were 387 sub-registry offices open at the close of the triennium against 415 offices at the beginning of 1932.

6. 2,137 appeals under section 72 and applications under section 73 of the Indian Registration Act were disposed of during the three years against 3,949 in the previous triennium. The number of prosecutions instituted under section 83 of the Act was 42 against 67.

7. Government recognise the unsuitability of many of the existing buildings, which accommodate the sub-registrars' offices, but see little prospect of undertaking any programme of construction. Financial considerations similarly prevent any appreciable progress being made with the extension of record rooms and the provision of racks to cope with the increasing number of records.

8. No new Sub-Registrars were recruited during the last three years owing to the reduction in the number of sub-registry offices. The scale of pay for future entrants has been reduced.

These measures and the increase in the *ad valorem* fees, referred to in paragraph 3 of this resolution, should result in a larger net revenue to Government from this department.

9. The Inspector of Registration offices inspected 94 sub-registry offices, District Registrars made 418 inspections, District Sub-Registrars 1,174 and Subdivisional Officers 150 during the triennium.

Government (Ministry of Education) desire to place on record their appreciation of the services of Khan Bahadur Shamsuddin Ahmed and of his efficient administration of the department. They also note with satisfaction the co-operation and assistance given to him by the District Registrars and the good work done by those officers whose names the Inspector-General has specially brought to the notice of Government.

Order.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Registration, Bengal, for information.

Ordered also that a copy of the resolution, together with the report, be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette.*

Rules for the preparation and execution of projects for water-supply, sewerage or drainage by local authorities.

1. *Definition.*—In these rules—

(*a*) "local authority" means a district or local board constituted under the provisions of the Bengal Local Self-Government Act of 1885.

(*b*) "Chief Engineer" means the Chief Engineer, Public Health Department.

(*c*) "Sanitary Board" means the persons for the time being appointed, either by name or by official designation, by the Local Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board.

2. *Preparation of sketch of project.*—(*1*) Whenever a local authority desires to undertake a project for water-supply or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of this description, it shall first cause to be drawn up a sketch of the project roughly showing its scope and estimated cost.

(*2*) Such sketch may be drawn up—

(*a*) by the Chief Engineer, at the request of the local authority; or

(*b*) by any private firm approved by the Chief Engineer; or

(*c*) with the permission of the Chief Engineer, by the District Engineer; or

(*d*) by any other officer in the employ of the local authority or by an officer specially appointed by the local authority for the purpose, subject in either case to the selection of such officer being approved by the Chief Engineer.

(*3*) In cases (*b*) to (*d*) referred to in sub-rule (*2*), the sketch of the project, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(*4*) The Chief Engineer shall, in all cases, act as adviser of the local authority.

3. *Submission of sketch, statement and application.*—(*1*) When the estimated cost of any scheme, or of any larger scheme of which it forms a part, exceeds Rs. 10,000, or when the financial assistance of the Local Government is desired, the local authority shall submit the sketch of the project prepared under rule 2 to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project from current revenue or by way of loan or from any other source.

(*2*) The Sanitary Board, after considering the project, shall forward it to the Local Self-Government Department of Government for decision as to administrative approval with such recommendations as they may think fit, and, if the project relates to local areas under the control of two or more local authorities, with proposals for the distribution of the cost.

(*3*) When the estimated cost of any scheme, or of any larger scheme of which it forms a part, exceeds Rs. 5,000 but does not exceed Rs. 10,000, or when the financial assistance of Local Government to the scheme is not required, it shall not be necessary for a local board to obtain the administrative approval of the Local Government to such scheme; but the Chief Engineer shall be consulted and the scheme with a copy of the Chief Engineer's opinion on it shall be submitted to the Commissioner for approval.

4. *Conditions precedent to obtaining administrative approval of the Local Government to a project.*—In order to obtain the administrative approval of the Local Government to any such project, the local authority shall satisfy the Local Government—

(*1*) that the cost of maintenance of the projected work can be met by the local authority from its own revenue;

(*2*) that any loan required to meet the cost of the work can be repaid, together with the interest thereon, within the period that may be prescribed by the Local Government; and

(*3*) that the work can be done effectually in the manner and for the cost proposed.

5. *Procedure after grant of administrative approval: preparation of detailed plans and estimates.*—(*1*) When the administrative approval of the Local Government or the Commissioner of the Division, as the case may be, has been obtained to the project (but in no case before such approval, except with the previous sanction of the Local Government or the Commissioner as the case may be), the local authority may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(*a*) apply for the services of the Chief Engineer, or

(*b*) with the previous sanction of the Chief Engineer—

(*i*) entrust the work to a private firm; or

(*ii*) entrust the work to the District Engineer; or

(*iii*) cause the plans and estimates to be prepared by any other officer in the employ of the local authority, or by an officer specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(*2*) In case (*a*) referred to in sub-rule (*1*) application shall not be made for the preparation of plans and estimates for alternative schemes, unless the local authority at the same time undertakes to pay for each such scheme the fees laid down in rule 30.

(*3*) In case (*b*) referred to in sub-rule (*1*), the plans and estimates, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(*4*) When land has to be acquired, the officer preparing the scheme shall send necessary particulars of such land to the Collector of the district and shall obtain from him an estimate of the cost of its acquisition. This estimate shall be submitted with the main scheme as a separate estimate.

6. *Submission of detailed plans and estimates for approval.*—(*1*) The detailed plans and estimates shall, on completion, be forwarded by the local authority in duplicate to the Sanitary Board through the Commissioner of the Division or for final sanction to the Commissioner of the Division as the case may be, together with, in the former case, a report on the state of public feeling in regard to the scheme and, if a loan is required, with an application in the prescribed form, and, in the latter case, a copy of the Chief Engineer's opinion on the scheme as finally drawn up.

(*2*) If the scheme is a drainage scheme the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(*3*) When the scheme has not been prepared in the office of the Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been based.

(*4*) The Sanitary Board shall submit the scheme as finally drawn up to the Local Self-Government Department of Government for approval, with an expression of their opinion (*a*) on its merits and (*b*), if a loan is required, on the terms of such loan.

7. *Submission of proposals for rules regulating house-connections.*—If the scheme includes projects with the intention of allowing house-connections, the local authority shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposals for rules under section 138 of the Act regulating house-connections.

8. *Final sanction of schemes.*—The Local Government may either sanction or reject the scheme as submitted by the Sanitary Board or may refer it, with such proposals for amendment as it may think fit, to the Sanitary Board.

9. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof,

until the detailed plans and estimates have received the final sanction of the Local Government under rule 8 or of the Commissioner of the Division, as the case may be.

10. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the local authority has reason to anticipate that the sanction detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the local authority that the sanctioned detailed scheme will require material alteration, the local authority shall forthwith submit to the Local Government or the Commissioner of the Division as the case may be, for sanction a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

(*a*) in the case of schemes prepared and carried out by a firm of engineers of established reputation, or by an officer specially appointed for the purpose under rule 5 (*1*) (*b*) (*i*) or 5 (*1*) (*b*) (*iii*) and rule 12 (*2*) (*a*), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer.

(*b*) in the case of schemes prepared and carried out by the District Engineer under rules 5 (*1*) (*b*) (*ii*) and 12 (*2*) (*b*), by that officer and shall be scrutinized by the Chief Engineer.

(*c*) in all other cases, by the Chief Engineer.

11. *Taking over of complete supervision and control by Chief Engineer.*—(*1*) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage and drainage towards which the Local Government make a grant amounting to Rs. 50,000 or more, or to half the total cost of the scheme, or more. The local authority shall undertake to pay the fees specified in rule 32 before work on the scheme is begun.

(*2*) In other cases the local authority may request the Chief Engineer to take over supervision and control of the work, and on the local authority undertaking to pay the fees specified in rule 32, the Chief Engineer shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(*3*) Works, of which the complete supervision and control are taken over by the Chief Engineer under sub-rule (*1*) or sub-rule (*2*), shall be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the Code for establishment, etc., will be covered by the fees specified in rule 32 hereof, or shall be met by the local authority by payment of such fees as the Local Government may from time to time prescribe.

(*4*) In addition to the above fees the local authority shall bear all law charges on behalf of the Local Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the local authority under sub-rule (*4*), if, in the opinion of Local Government, the suit is due to the malfeasance or negligence of the Chief Engineer or an officer subordinate to him.

(5) The local authority shall be given an opportunity of seeing the terms of any contract for the execution of such work before it is executed. The Chief Engineer shall consider any remarks made by the local authority as to the terms of the contract and if he is unable to accept the remarks shall submit the matter to the Local Government for decision.

12. *Conditions as to detailed engineering supervision.*—(1) Where the projected work is estimated to cost more than Rs. 10,000, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Local Government under rule 8.

(2) Save as otherwise expressly directed by the Local Government—

(a) the work shall be carried out under the supervision of an engineer, either permanently employed by the local authority or specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or

(b) with the previous approval of the Chief Engineer, the work shall be carried out under the supervision of the District Engineer and his staff; or

(c) the work shall be carried out under the complete supervision and control of the Chief Engineer in the manner provided in rule 11.

(3) In cases (a) and (b) referred to in sub-rule (2), the work while in progress shall be subject to inspection and control by the Chief Engineer.

13. *Report by local authority to the Chief Engineer in case of small work.*—Where the work is estimated to cost not more than Rs. 10,000 and where a grant or loan has been taken from the Local Government, the local authority shall report to the Chief Engineer, the agency by which it is proposed to have such works carried out, and shall follow the instructions issued by the Chief Engineer in the matter.

Tenders and Contracts.

14. *Procedure to be followed in case of other works.*—In the case of works carried out under clause (a) or clause (b) of rule 12 (2) the procedure provided by rules 15 to 26 shall be followed.

15. *Preparation of drawings, specifications, forms of tender, etc.*—When requested by the local authority, the Chief Engineer shall, subject to the payment of the fees mentioned in rule 30, prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of schemes, which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

16. *Approval of Chief Engineer to drawings, specifications, forms of tender, etc.*—When drawings, specifications, bills of quantities, forms of tender and other documents or plans referred to in rule 15

relating to any work are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for his approval in writing before tenders for the contract of such work are advertised for.

Note (i).—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

Note (ii).—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

Note (iii).—The standard form of a contract shall be adopted wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

Note (iv).—Provision shall be made in contracts for safeguarding properties belonging to Government or local bodies when such properties are entrusted to a contractor.

17. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one or more newspapers and shall briefly describe the works required to be carried out and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

18. *Approval of plans, drawings, specifications, forms of tender, etc., by the local authority.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the local authority in meeting. Whenever such authority desires to make any alteration in any one of such documents, the Chief Engineer shall be informed and his advice obtained with regard to such alteration.

19. *Submission and receipt of tenders.*—All tenders shall be submitted in sealed covers addressed to the Chairman or the Vice-Chairman of the local authority, who shall attend in person at the office of such authority, or at any other place to which it has been directed that tenders shall be forwarded, at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall not be considered.

20. *Opening and numbering of tenders.*—The Chairman or the Vice-Chairman of the local authority shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

21. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

(*i*) sent to the Chief Engineer; or

(*ii*) in the case of works carried out under rule 12 (*2*) (*a*) under the supervision of an engineer approved by the Chief Engineer as being competent to advise on these questions, handed to that officer; or

(*iii*) in the case of works carried out under rule 12 (*2*) (*b*) under the supervision of the District Engineer, handed to that officer,

for check and scrutiny:

Provided that, in case *(ii)* or *(iii)*, the engineer employed by the local authority or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

22. *Return of tenders after check and scrutiny.*—The Chief Engineer, or the engineer employed by the local authority, or the District Engineer, as the case may be, shall, after checking and scrutinizing the tenders, return them to the local authority with his remarks and recommendations.

23. *Consideration of tenders.*—The local authority shall in meeting consider the tenders when checked and scrutinized under rule 22, and either accept one of them provisionally or, if the local authority thinks it desirable, refer the matter to the Chief Engineer for advice.

24. *Acceptance of tender.*—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. If the person making a tender makes in it after its submission any reduction or any alteration other than the correction of a palpable arithmetical error, that tender shall be out of order and shall not be considered. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

25. *Discharge of tenders and advertisement for fresh tenders.*—If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

26. *Provisional acceptance and submission of tenders to the Chief Engineer.*—After a tender has been provisionally accepted, it shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the local authority:

Provided that, in case of a difference of opinion between the local authority and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the local authority so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties.

27. *Placing and acceptance of contracts.*—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous approval of the local authority at a meeting. The terms of the contract, once accepted, shall not be materially varied without the previous consent of such authority.

28. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 12 (2) (c) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the powers of a Superintending Engineer, Public Works Department, as defined in Government orders Nos. 126P.H. and 777P.H., dated the 14th January 1931 and 1st April 1932, respectively.

29. *Examination of contracts by audit authorities.*—The audit authorities shall have power to examine contracts and to report to the Local Government any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

Fees.

30. *Fees.*—For the services of the Chief Engineer specified in column 1 of the following table, the fees shown opposite in column 2 shall be payable by the local authority:—

Nature of work.	Fees.
1	2
(a) Preparation of detailed estimates and drawings for projects and schemes.	2 per cent. on the estimated cost of the works.
(b) Preparation of contract drawings, specifications and forms of tender.	2 per cent. on the estimated cost of the works.
(c) Examination and check of detailed estimates and drawings for projects and schemes prepared by a different agency.	½ per cent. on the 1st Rs. 20,000 of the estimated cost and ¼ per cent. on the balance of the estimated cost of the works.

Provided that when the Chief Engineer prepares both (a) detailed estimates and drawings and (b) contract drawings, specifications and forms of tender in respect of the same works, an inclusive fee of 3 per cent. on the estimated cost of such works shall be payable.

Note 1.—In calculating the fees the cost of survey, land acquisition and supervision shall be excluded from the estimated cost.

Note 2.—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

Note 3.—The local authority shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it

abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months or such longer period as the Local Government may be pleased to allow of the final sanction of the scheme.

Note 4.—Under rule 5 fees are to be paid for the preparation of alternative plans and estimates for which application is made by the local authority: but revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements does not amount to the preparation of an alternative scheme for the purpose of this rule.

31. *No charge for services of the Chief Engineer, or his assistants for preparation of sketch of project.*—When the preparation of the sketch of a project is undertaken or supervised by the Chief Engineer under rule 2, no charge shall be made for his services or for those of his assistants, or for the services of Government surveyors, draftsmen and tracers engaged in such work, and drawing materials and instruments required for such work shall be provided at Government expense:

Provided that the local authority shall render all reasonable assistance on the spot in supplying survey coolies and survey pegs and in fixing bench-marks, etc., and shall pay the actual cost of the same, and shall also, in each case, provide a suitable office properly furnished for the use of the Government surveyors and draftsmen.

32. *Fees for supervision and control of works under rule 11.*—(*1*) The fee payable for the supervision and control of works by the Chief Engineer under rule 11 shall be 8 per cent. on the actual cost of the work.

(*2*) The percentage prescribed in sub-rule (*1*) shall be debited to the work every month and shall be calculated on the total expenditure on the work for the month, no item of expenditure recorded in the accounts being exempt from the percentage charges.

Note.—The expenditure on land acquisition shall not be included in the calculation referred to in sub-rule (*2*).

Annual Report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1934-35.

ROYAL BOTANIC GARDEN.

1. **General.**—Apart from the effects of a severe storm of a cyclonic nature which seems to have caused much more havoc in the Sibpur area than in neighbouring Calcutta districts, the garden escaped with minor damage during the year. For garden operations the year under report may be said to have been normal. Climatic conditions avoided the extremes occasionally experienced and while such extremes as prolonged hot and dry or cold season may at Sibpur occasionally favour the natives of other climates grown here, the North-East Indian elements, by far the largest, in our garden flora suffered none of the effects these conditions bring for them.

It is, therefore, pleasant to look back on a year during which a good deal could be done for the improvement of the garden and during which a good was done.

The usual operations by which the garden is kept clean and tidy, the normal day to day duties of attending to the labour force and its work, were carried out faithfully; but not a small amount of time has been given this year to special lines of work designed to make the garden more interesting to the casual visitors out for recreation and enjoyment as also to enrich its collections for the benefit of the scientifically minded.

And a year which has exceeded all previously known to the writer for its wealth of garden bloom has also brought to the garden a larger addition of new species than has previously been his fortune to record. If there is one direction more than another in which the amenities and beauty of the Sibpur Gardens could be advanced this would take the form of a finer display of flowering annuals at the time our Calcutta friends, as well Calcutta's visitors pay their annual visit. Attempts were made this year by early preparation of seed beds and by indoor work to force some of our regular annuals into prime condition for a December display. They were not all equally successful, however, some species responding, others declining to move; but the experiment did indicate directions that would warrant retrial, and earlier displays in future years may result from the experience gained in 1934-35. The mass and variety of bloom have, however, exceeded what we have been able to show before; and if the best time for visiting it was late in January, when the largest crowds had already come and gone, it was freely accorded the distinction of being such a really good show as to warrant the exertion of repeated visits.

As in former years plants brought to bloom in the nurseries were staged out at vantage points throughout the garden, while an extension of the idea lay in the preparation of numerous small flower beds skirting the main roads. Stock for these was transplanted from the nurseries at various stages of development, and proof is had that, if the selection of species be good, the result can add greatly to the attractiveness of the garden. To say that the flower beds now occupy many times the area covered some years ago is to give little idea of the improvement made towards brightening the garden. The former criticism of a distinguished foreign visitor, a Frenchman, that a garden so rich should not be so "triste" could scarcely be levelled against its appearance now.

All the ordinary annuals that do best in our Calcutta climate found a place, for the comparative ease with which they can be grown does not affect the ultimate beauty of beds of Phlox, Antirrhinum, Verbena, Nasturtium and so on, but these form the massive background to a colour scheme that embraces a hundred others now so well tried as to warrant a permanent place in our show of annuals.

The orchid house, which incidentally contains but a very small proportion of this class relative to what it contains of foliage plants, has been renovated and remodelled. On entering a much better view of its lay out and contents now meets the eye for it had become overgrown and dense. The beds and rockeries of which it is mainly composed have been lowered with improved effect and an innovation is contemplated in the lay down of a central large bed containing single named representatives of all the species present in the house. This should add to its attractiveness besides providing an index to those visiting it of what to look for in its main collections.

The orchids themselves for reasons which attach to plants, some of which are rare and valuable, cannot all be displayed in a house open to the public, but many of the more beautiful orchids such as the Dendrobium are not uncommon and these furnish a stock from which a mass of bloom can from time to time be incorporated in the orchid house to relieve by colour the otherwise drab effect of groups of foliage plants. The rarer orchids housed elsewhere under glass or in shade in the nurseries can always be visited by special arrangement, and certain work going on in the crossing of these plants adds to the interest of visiting them.

So also part of the large palm house has been repaired. It too had become somewhat overgrown and dense, but as some of the plants housed here have reached tree size renovation in the same sense as applies to the orchid house can only be undertaken gradually and with much more difficulty.

Chiefly as an interest to visitors, and especially to lady visitors to the garden, a rock garden in a secluded portion near the pavilion is in course of preparation. It is well shaded and attempts to grow rock and other plants from cooler regions are intended. It has been planted up amongst others with species of *Deutzia*, *Philadelphus*, *Meconopsis*, *Spiraea*, *Fuchsia*, *Hydrangea*, *Camellia*, *Rubus*, *Saponaria*, *Dianthus*, *Aubrietia* and *Iris*. It is unlikely that these will all do equally well, but the possibility if not the suitability of Sibpur for certain cooler climate plants having been proved by experiment in the nurseries, it was thought worth while to attempt a public display of these in as cool conditions as could be had in the open. Hence this shaded outside rockery. In general appearance it suffers somewhat from an insufficiency of rocks and boulders but this will be rectified in time as we get suitable material.

In addition to the plants mentioned above the following were reared from seed and given situations in the rockery:—*Caryopteris Mastacanthus*, *Solidago canadensis*, *Chlorophytum marginatum*, *Chlorophytum inornatum*, *Chlorophytum Hoffmannii*, *Hypericum perforatum*, *Hypericum Androsæmum*, *Clematis montana*, *Mimulus luteus*, *Buddleia stenostachya*, *Buddleia Fallowiana*, *Rosa macrocarpa*, *Stranvaesia salicifolia*, *Rhus viminalis*, *Digitalis purpurea*. *Phlox decussata*, *Phytolacco decandra*, *Cineraria sp.*, *Soutellaria andamanica*, *Anisacanthus virgularis*, *Ptelea trifoliata*, *Ruta graveolens*, *Delphinium Staphisagria*, *Delphinium Zalil*, *Primula sp.*, *Verbena officinalis*, *Chrysanthemum sp.*, *Chrysanthemum Leucanthemum*, *Cerastium Biebersteinii*, *Cerastium tomentosum*, *Anemone slavica*, *Dianthus caesius*, *Dianthus deltoides*, *Geranium sp.*, *Angelonia grandiflora*, *Campanula carpatica*, *Campanula rotundifolia*, *Campanula pilosa*, *Lobelia sp.*, *Rumex salicifolius*, *Eccremocarpus scaber*, *Pentstemon barbatus*, *Cercis Siliquastrum*, *Thalictrum foetidum*, *Evodia hupehensis*, *Iris sibirica*, *Heliotropium peruvianum*, *Spiræa Veitchii*, *Tellima grandiflora*, *Ampelopsis brevipedunculata*. *Tiarella cordifolia*, *Arabis albida*, *Geum pyrenaicum*. *Cocculus trilobus*, *Armeria alpina*, *Betonica officinalis*, *Freesia refracta*, *Galium purpureum*, *Aconitum Napellus*, *Meconopsis cambrica*, *Meconopsis sp.*, *Deutzia scaber*, *Ranunculus acris*, *Clerodendron sp.*, *Brunfelsia sp.*, *Impatiens Holstii*, *Wigandia caracasana*, *Cotoneaster fringida*, *Cotoneaster Henryana*, *Cotoneaster microphylla*. *Cotoneaster acuminata*, *Diospyros Kaki*, *Cytisus Laburnum*, *Berberis polyantha*, *Callicarpa Geraldiana*, *Hydrangea Hortensia*, *Fuchsia Splendens*, *Pentstemon grandiflorus*, *Genista canariensis*, *Lathyrus lutens*, *Artemisia sp.*, *Portlandia grandiflora*, *Prunus sp.*, *Statice sp.*, *Begonia semperflorens*, *Viola odorata*, *Violo sp.*, *Cyclamen sp.*, *Aster Novi-Belgii*, *Muntingia Calabura*, *Rubus lasiocarpus*.

Although palms as a group usually get off lightly in cyclonic disturbances the violence of some recent storms has had its effect. Many of our best palms go back to dates when the garden was devastated by the great cyclone. Amongst other palms, the Palmyra, which gives its name to an avenue of these trees running along the north east end of the garden, has not escaped. Gaps in this avenue have been filled with young palmyras but it will take time for the avenue to gain the previous regular appearance and that the present eyesore may be mitigated many of the remaining palms have had flowering creepers planted against them. The excellent effect of climbing shrubs like *Petrea* in such situations has long been apparent in this same avenue, and the present wholesale planting of climbers is an attempt to cover up the effects of damage that time alone will properly repair with the growing up of fresh trees. No fewer than 133 trees were more or less completely destroyed in the garden during the recent cyclone.

In addition to 854 already represented plants put out to permanent situations in the open, the following species new to or rare in the garden have been added:—*Sophora violacea*, *Licania arborea*, *Erythrina carnes*, *Gliricidia sepium*, *Anona bullata*, *Pithecolobium Drasilience*, *Allamanda Williamsii*, *Narpullia Sanguobarica*, *Clorocarya caffra*. *Strophanthus sarmentosus*, *Sterculia rupestris*, *Clerodendron squomatum*, *Vitis aconitifolia*, *Gleditschia japonica*, *Diospyros Kaki* *Diospyros Lotus*, *Diospyros Ebenaster*, *Derris thyrsiflora*, *Tabernaemontana amblyocarpa*, *Plumeria normifolia*, *Erythrina pallida*, *Cinnamomum Deschampsii*, *Chrysophyllum monopyrenum*, *Muntingia Calabura*, *Solanum guttatum*, *Eucalypthus alba*, *Eucalyptus pilularis*, *Eucalyptus maculata*, *Eucalyptus pollita*, *Eucalyptus Stuartiana*, *Eucalyptus microcorys*, *Eucalyptus Torelliana*. These additions considerably exceed in number those of recent years. The policy inaugurated

some years ago of increasing the variety and quantity of nursery stock is, therefore, now happily reflected in what is going out to the garden. This will be continued to allow of the garden gaining what it had lost in addition to much new that it never contained.

Revetment of the river bank has, as was reported last year, gone to the charge of another Department, but the work is of such importance to the garden that reference to it here is permissible. A stretch of the bank lying between the ghat and the new kiosk has been completely revetted. The addition secures the garden where it was constantly being menaced, and in addition adds greatly to the attractiveness cf the bank at a spot where it is now most frequented. It will take time for the earthwork to settle, but when this is complete, when the bank is turfed and when a railing surmounts the revetment wall, there may be expected few more attractive places for a public to visit and enjoy of an evening. The presence of a band daily at the kiosk has been an additional attraction. If numbers of visitors and a demand for increased facilities are an indication of the utility of public institutions like gardens those responsible for them may find satisfaction in the knowledge that the visiting public has greatly increased of late, and that there is a constant demand for later garden closing hours.

Only such funds as could be spared from garden work proper were available for repair of the garden roads. These were nothing like adequate to bring the roads to a proper state of repair and, of course, nothing could be done in the way of excavating tanks. This latter work will sooner or later become imperative, for the health of no community in lower Bengal will continue to stand the malaria ravages that take toll as sanitary conditions deteriorate. And the circle is vicious, for the worse the tanks become the greater becomes the incidence of malaria and the less able is labour to deal with the conditions that promote the disease. Practically all over labour force suffers off and on from malarial epidemics.

2. **Plant and seed exchange.**—Some 65 lbs. and 323 packets of seeds were distributed to various countries in all the continents, and 1,069 packets of seed received on an exchange basis. Plants to the number 14,006 were distributed to different public and charitable institutions and 1,012 plants received.

3. **Herbarium and Library.**—The total number of specimens identified this year for about 112 correspondents is 2,434. Of these the major collections, worked by Mr. Narayanaswami, represent Bor's Assam Frontier Aka Hill specimens. Shillong specimens of Messrs. Das and Kanjilal are not included in the number.

Specimens numbering some 300 have been received from the Smithsonian Institute, Washington, from the University of Canton and from the Singapore Gardens. Duplicates acquired by recent explorations are being got ready for a continuance of exchange relations, and certain numbers have been supplied to various institutions and individuals in India.

As usual, numbers of herbarium sheets have been on loan to workers on different groups of plants. The material of Derris is at Manila under Quisumbing; the Burmanniaceae, sheets are at Utrecht, Holland, with Dr. A. Pulle, Director, Botanical Museum. The genus Avicennia has been made available to Dr. Moldenke at New York for a comparative study on mangrove vegetation.

At headquarters Messrs. Parkinson, Kanjilal and Das have had the material of various groups, geographic or systematic, placed at their disposal for comparison. Of economic groups the Gossypiums have gone to Indore for Mr. Hutchinson's genetical work. Dr. Sahni has revised fern sheets of the genus Marattia in the stride of his work on fossil botany. Some 163 sheets of the genus Evolvulus have been received back from Holland and of the sheets sent out in connection with the revision of the Flora of Madras the majority have been returned.

Some 6,000 sheets have been incorporated during the year and about 600 genus covers changed. Necessary repairs to the sheets together with cleaning and poisoning of specimens continued as usual.

General information on all kinds of subjects botanical has been supplied to a wide range of correspondents. A feature of the enquiries this year lies in the number that relate to the economic side of the subject. Chemical Examiners and Customs authorities, for instance, have had information supplied on the differentiation of fibres and assistants of the Customs Department have been deputed to get laboratory training in the methods of examining samples.

Notes on the genera *Psilotum*, *Isoetes*, *Imperata*, *Andropogon* and *Derris*, forming material in answer to economic problems, were furnished as was also a note on gutta-percha milk or Palaquium gutta. From New South Wales came enquiries of an economic nature for information on the Tongan cane and its distribution, while the distribution of Indian species of *Thalictrum and Berberis*, presumably in connection with work of a mycological nature, was communicated to Dr. Mundkar of Pusa.

Efforts were made during the year to resume some of the field work so long held under abeyance on account of financial stringency. The Curator of the Herbarium, who was accompanied by Dr. Das Gupta of Lucknow, went to Northern Bengal where the region from the foot of the hills to Sinchu La was botanised. Field work resulted in the acquisition of some 6,000 sheets including material new to the area. Part of the area was visited a second time by one of the Herbarium Assistants, Haripado Nasker, when the collections already made were added to by some 1,000 sheets. During Mr. Biswas' tour notes of an ecological nature were made and, besides the specimens, information gained that, it is hoped, will find incorporation in the revised Bengal Flora contemplated. Collections on a smaller scale were also made during a tour to the Pareshnath Hills.

Loan relationships have been continued. Some 316 books have been bound. Periodicals purchased and received in exchange are as in previous years.

4. **Publications.**—Work on the plates for Sir David Prain and Mr. Burkill's monograph of the Dioscoreas has been continued under the same financial arrangement as was come to last year with the Trustees of the Bentham Moxon Fund. Mr. Biswas has published several papers on a variety of subjects including the results of his algological works. With the writer he is still engaged in a descriptive and illustrated monograph on Indian Water Plants which it is hoped, will be published soon. The book was first intended to comprise only the common higher water plants but progress soon revealed that on such lines the utility of the work would be greatly restricted; and as marsh vegetation could not readily be separated from water vegetation it was found necessary to considerably increase the number of phanerogamic species dealt with.

5. **Finance.**—Out of the total budget allotment of Rs. 55,028 for staff and permanent establishment, Rs. 55,067 were spent, and under all other heads the expenditure amounted to Rs. 49,268 against the total allotment of Rs. 49,495. A sum of Rs 75 was surrendered. There was a net saving of Rs. 113 under all heads during the year. Receipt of the Department during the year amounted to Rs. 2,670.

6. **Staff.**—The writer held the post of Superintendent throughout the year. Mr. K. Biswas was Curator of the Herbarium, Mr. N. Mitra was Curator, Royal Botanic Garden, Calcutta, from 2nd May, 1934, to 31st March, 1935. He was on leave from 1st April to 1st May, 1934. Mr. Merlin Jones, Assistant Curator, Government Gardens, Calcutta, was Officiating Curator, Royal Botanic Garden, during the period on leave of Mr. N. Mitra. Mr. Md. Quasem Ali was Officiating Assistant Curator, Royal Botanic Garden, Calcutta, from 2nd May, 1934, to the end of the year. Mr. K. S. Joneja was Officiating Assistant Curator, Royal Botanic Garden, Calcutta, from 1st April to 1st May, 1934, and held the post of Overseer, Royal Botanic Garden, from 2nd May, 1934, to the end of the year.

Mr. Sachindranath De was officiating Overseer from 1st April to 1st May, 1934.

Mr. A. T. Banerjee was Head Clerk throughout the year.

CALCUTTA GARDENS.

Work in the Eden, Dalhousie Square and Curzon Gardens was mostly of a routine character. The gardens are in good condition. Of the three Dalhousie Square is the least satisfactory. This is not surprising, for the Square is a rendezvous for loiterers and for through traffic rather than for visitors, and at all times its condition presents a problem to those in charge. The Curzon Gardens, improve gradually as the trees grow up; but the crowds that collect about it of an evening it is

not suggested they should not do so—also bring special difficulties for the gardeners' solution. The Eden Gardens which since the band was stopped have lost part of their evening liveliness, poeple now congregating more in the vicinity of the Victoria Memorial, are in a very good condition. The display of annuals in all these gardens was up to standard, an item of special interest this year being the presence of *Victoria regia* in some of the lakes. This American water plant with its enormous saucer shaped leaves is naturalised largely in the Maley Archipelago where it grows in masses to cover extensive areas. Although it has been grown frequently in and around Calcutta it does not take very kindly to our climate and requires special protection here against its enemies. It proved an attraction to many visitors.

As in the Royal Botanic Gardens, so here the most unsatisfactory item about the Calcutta gardens relates to the tanks. They are first silting up and the presence of anophaline larvæ in considerable numbers has been detected. In consequence part of the grant for the gardens was diverted to prevention of the breeding of mosquitoes, but money for a thorough excavation of the tanks is badly needed. A scheme for this has been prepared; it is under Government's consideration.

Ordinary annual repairs were carried out where necessary to garden structures. Some 55,000 sq. ft. of road were dealt with in addition to the paths round the band stand getting a treatment of soorkey sifting.

Finance.—Out of the total grant of Rs. 30,260 under all heads, Rs. 30,254 were spent leaving a saving of Rs. 6. Receipt of the Calcutta Gardens during the year amounted to Rs. 32.

Staff.—Mr. Md. Quasem Ali was officiating Assistant Curator, Government Gardens, Calcutta, from 1st April to 1st May, 1934.

Mr. Merlin Jones was Assistant Curator, Government Gardens, Calcutta, from 2nd May, 1934, to the end of the year.

LLOYD BOTANIC GARDEN, DARJEELING.

The rainfall for the year at this garden was 111 inches, a fall below the average, but this did not materially affect the general health of plants. The abnormally dry weather, however, did make the rearing of annuals difficult. Several repairs to garden works were necessitated as a consequence of damage caused by the earthquake. The southern wall of the glass house had to be replaced by a ferroconcrete structure as also an ordinary cement tank inside the house. New wooden frames were erected and the usual annual repairs carried out on seats, shelters, gates and fencing. In respect of its structures the garden is now in a fairly satisfactory state.

The rockeries near the large conservatory were first renovated and then had the following additions of plants:—*Meconopsis Wallichii, Meconopsis Baileyi, Meconopsis integrifolia, Aubrietia Campbellii, Arenaria montana, Arnebia cornuta, Chelone barbata* and species of *Primula, Lychnis, Sedum* and *Papaver*. The rockery to the top of the garden near the office had additions of species of *Rhododendron* and *Gaultheria* amongst woody shrubs and *Taraxacum* and *Ranunculus* amongst herbaceous.

Besides the usual display of flowers of green house pot plants, the following species bloomed during the year:—*Meconophis Wallichii, paniculata, Baileyi, cambrica, Cathcartia villosa, Lilium nepalense, giganteum* and *Wallichianum* while the blooming of *Meconopsis simplicifolia* collected at Lhonok at 15,000 feet shows that the elevation of Darjeeling will suit even some of the higher alpines.

Every effort was made to maintain the general appearance of the garden. About half the garden area was combed to check the growth of moss on the lawns. As everyone attempting to keep lawns pure in the moisture laden atmosphere of the Himalayas knows, the eradication of moss presents a special problem. It is a worse pest in such conditions than is *Cyperus rotundus* or *Evolvulus numularius* two species that give our malis so much trouble with courts in the plains.

In replacement of garden casualties 216 additions were made. These include *Pyrus Griffithii* and *Rhododendron Aucklandii* new to the garden.

Some 54 packets of seeds were received from various correspondents world wide in their range, seed from New Zealand finding new companionship in the young seedlings from such distant origins as Florida, France and Cuba. Noteworthy germinations include several species of *Clematis*, *Dodonaea viscosa*, *Metrosideros tomentosa*, *Pachystegia insignis* and others, while the Curator reports the germination of *Meconopsis grandis* and *Larix Griffithii* as particularly gratifying.

Distributions of plants, bulbs, seedlings and seeds were continued as usual, special consignments going to His Majesty's Parks and to the Viceregal Gardens, Simla. Of seeds 2,497 packets went out; of seedlings 8,024, of plants 330 while 51 bulbs or tubers made up a total of 10,902 items distributed.

The registers of visitors kept by the gate durwans indicate that over 49,000 persons visited the garden during the year. In spite of its somewhat difficult accessibility the Lloyd Botanic Garden would seem to hold its own as a favourite resort for all who visit Darjeeling.

Finance.—Out of the total allotment of Rs. 15,377 under all heads, Rs. 15, 010 were spent and a sum of Rs. 352 was surrendered leaving a small balance of Rs. 15.

Staff.—Mr. S. N. Basu held charge of his post as Curator during the year. Chandrabir Sunwar, the garden Sirdar, was absent on leave for two months from September to October, 1934, during which time Babu Bahadur Singh carried on the double duties of Clerk and Sirdar.

DEPARTMENT OF AGRICULTURE, BENGAL.

Ramna, Dacca, the 11th September 1935.

Monthly Weather and Crop Report of Bengal for August 1935.

I.—*Character of the season.*—During the month under review, the rainfall was above the normal in twenty-two districts, while elsewhere it was below normal. The usual rainfall statement is appended.

II.—*Progress of agricultural operations.*—During the first part of the month more rain was needed for transplantation of winter paddy in parts of West and North Bengal. Resolution on the report on the Police Administration of the Bengal Presidency for the year 1934.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA THE 14TH SEPTEMBER 1935.

RESOLUTION —No. 4834Pl.

Read—

The Report on the Police Administration of the Bengal Presidency for the year 1934.

Mr. T. J. A. Craig, C.I.E., held the office of Inspector-General of Police during the year.

2. *Eastern Frontier Rifles.*—The battalion maintained its efficiency and discipline under the command of Lieutenant-Colonel E. D. Dallas-Smith, I.A. It is gratifying to note that the figures under the various heads of casualties fell from 118 to 67 and that there was a further decline in the daily average number of sick in hospital from 14·81 to 10·08.

3. *Strength, health and discipline.*—The strength of the permanent forces (including the Eastern Frontier Rifles) at the close of the year was 25,130 officers and men. The gross expenditure incurred from provincial revenues was Rs. 1,76,48,636. The provincial police receipts were Rs. 2,69,000 approximately. Bengal (excluding Calcutta and Chittagong Hill Tracts) has a population of 48,704,346 so that the net cost of police per head of the population in 1934 was about five annas and eight pies only.

The number of constables recruited was 1,529, of whom 579 were local men, against 1,532, including 555 local men, recruited in 1933. As in the previous year, there was no dearth of qualified candidates, but suitable local recruits to the extent required were not available in all districts.

His Excellency in Council is pleased to note that the health of the force showed considerable improvement, the total admissions into hospital being 12,730 against 15,044 in the previous year. His Excellency in Council will watch with interest the arrangements that have been made, as an experimental measure, to put selected constables through a course of training in nursing at district headquarters to provide for the better nursing of sick in police hospitals.

The number of officers and men judicially punished, excluding those dealt with under the Police Act, decreased from 28 to 23, while cases of punishment inflicted departmentally rose from 7,957 to 8,228. While it is regrettable to have to record this increase in the number of departmental punishments, the figures are evidence of a determination to maintain a proper standard of discipline.

The number of complaints instituted against the police by private individuals was 233 against 242 in 1933. Out of the 197 cases disposed of during the year, only 19 ended in conviction. It will be seen that nine cases out of every ten brought by private individuals against police officers in the criminal courts ended in acquittal, discharge or dismissal.

His Excellency in Council is pleased to note that rewards amounting to Rs. 23,754 were granted to members of the public, a fact which affords welcome evidence of co-operation by the public with the police in the prevention and detection of crime.

4. *Crime statistics.*—There was a decrease in the number of non-cognizable cases from 124,248 to 123,291, but the number of true cognizable cases and of serious crimes increased from 67,666 and 43,033 respectively to 70,128 and 45,228. The increase in serious crimes was mainly in respect of burglary, theft and coining, while cases of murder, dacoity and robbery fell from 609, 1,518 and 649 respectively to 534, 1,280 and 630. The drop in the number of dacoities was most noticeable in Midnapore, Dacca, 24-Parganas, Hooghly and Khulna, being 111, 34, 26, 21 and 20 cases less respectively than in the previous year. The decrease is attributed to the action taken against organized gangs of criminals. It is noteworthy that the complicity of *Bhadraloks* in dacoity cases showed an appreciable fall from 28 to 13. Instances of resistance offered to dacoits showed a satisfactory increase from 45 of the previous year to 64.

As regards crimes committed within the jurisdiction of the railway police, there was an increase of thefts from running passenger trains on the Sealdah section of the Eastern Bengal Railway and on the Saidpur section of the Eastern Bengal and Assam-Bengal Railways, the figures being 86 and 35 respectively against 65 and 21 of the previous year. There is reason to suspect that this increase was due to the release from jail of certain notorious criminals who specialise in this form of crime. On the Saidpur section of the Eastern Bengal and Assam-Bengal Railways a dacoity with murder was committed at Hajiganj in which mail bags were looted. There also occurred another case in which a mail bag was looted at the point of a revolver.

5. *Working of the rural police.*—The total number of dafadars and chaukidars was 75,487 against 76,311 and the cost of their maintenance was Rs. 55,58,882 against Rs. 55,95,790 in the previous year. The average cost per month per head of the rural police came to Rs. 6-2-2.

His Excellency in Council has noted with regret the complaint of the Inspector-General of Police that in spite of individual good work done by some members of the rural police and certain Presidents and members of union boards to which he has drawn attention, there was little improvement in the general working of the rural police or in the co-operation of the members of union boards with the police. The complaints mainly are that the payment of salaries of the rural police is irregular, that they are slack in reporting crime and criminals to the thanas, that chaukidari parades before the Presidents of the union boards are not properly held and that many Presidents of union boards take no interest in police matters. The closer attention now paid to the affairs of union boards by Circle Officers and Subdivisional Officers, and the periodical co-operation meetings between the police and the members of the union boards which are now regularly held in many districts will doubtless go a long way to effect the improvements which are so necessary, and His Excellency in Council trusts that every effort will be made in this direction.

6. *Revolutionary crime.*—Excluding cases that occurred in the jurisdiction of the Calcutta Police, there were 14 cases of crimes committed in Bengal by terrorists as against 41 in the previous year and 74 in the year before. This improvement in the situation is due to steady pressure by the police, specially of the Intelligence Branch, against the various terrorist organisations and in a great degree also to the awakening of public opinion.

The crimes committed by terrorists included two murders of private persons, three attempted murders, six dacoities, in five of which firearms were used, one attempted dacoity, one robbery and one case of bomb-throwing.

In the year under review, the theft of 12 revolvers and pistols was reported, and 32 revolvers and 17 pistols were recovered.

The most conspicuous overt acts of terrorism committed during the year were the attempts on the life of His Excellency the Governor on the race course at Lebong in Darjeeling in May and on that of Mr. M. F. Cleary, Superintendent of Police, at Chittagong in January. His Excellency providentially escaped injury and the two culprits who fired were promptly overpowered. The investigation that followed showed that the outrage had been planned in Calcutta and Dacca and seven of the conspirators, all residents of Dacca, were tried by a Special Tribunal. Two of them were condemned to death, but the sentence of one of them was commuted by His Excellency to one of 14 years' rigorous imprisonment. The remaining five were sentenced to various terms of transportation and rigorous imprisonment ranging from 14 to 12 years. The two youths who attempted the life of Mr. Cleary were shot dead on the spot, while two others, arrested for throwing bombs amongst the spectators assembled in the *shamiana* on the cricket ground, were, on trial by a Special Tribunal, sentenced to death. The sentence was duly confirmed by the High Court.

A regrettable incident took place in Dacca in which a Muhammadan lost his life while endeavouring with three others to apprehend an armed terrorist who was passing with two other suspicious youths at about 2 a.m. on the 10th April 1934, down the Deobhog-Baburail Road. Two of the culprits managed to escape, while the third was seized. As a result of the investigation, two persons were tried by a Special

Tribunal. One was found guilty and sentenced to death, and the other was acquitted.

A notable success of the year was the arrest with booty of a number of culprits who, armed with revolvers and other deadly weapons, had broken into a house at Bathua, police-station Hathazari in the Chittagong district, and looted cash and ornaments to the value of Rs. 3,000. The arrest was effected under peculiar circumstances. It so happened that on the 24th February, the morning after the date on which the dacoity took place, it had been decided to cordon the area of Fateabad, embracing five or six villages in the neighbourhood of Bathua. Several persons with gold and silver ornaments and bundles containing revolvers and other deadly weapons were arrested within the cordon. On return to headquarters, it was found that the persons who had been arrested had taken part in the dacoity and that the gold and silver ornaments recovered had been stolen during the dacoity. A Special Tribunal before which fourteen persons were placed on trial, convicted them all, sentencing seven to transportation for life, two to transportation for ten years and the rest to rigorous imprisonment ranging from ten to seven years.

The series of terrorist outrages committed and the large number of pistols and revolvers recovered during the year are evidence of the fact that, though the police have been able to get the measure of terrorism as they had never done before, it is still an insidious and dangerous movement against which unremitting vigilance must be maintained.

7. *Intelligence Branch and Military Intelligence Officers.*—His Excellency in Council takes this opportunity of expressing his appreciation of the loyal services rendered by all ranks of the Intelligence Branch which in co-operation with the Military Intelligence Officers have done invaluable work in breaking up the terrorist organizations. His Excellency in Council also places on record his appreciation of the services rendered by the various military forces whose presence has inspired a sense of security amongst civil officers and the loyal supporters of Government in the province. He also notes with satisfaction the services rendered by the Watch and Ward Committees in Midnapore and the Village Watch Committees in Chittagong which contributed not a little towards checking the spread of the terrorist movement in those districts.

8. *Commendation of officers.*—His Excellency in Council has been pleased to read the tributes paid by the Inspector-General of Police to his staff and desires to take this opportunity of placing on record his appreciation of the services rendered by all ranks of the force. Thanks are due to Mr. Craig for maintaining a high standard of discipline and efficiency.

Order.—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

Ordered also that the resolution be published in the *Calcutta Gazette.*

No. 7969 J.—17th September 1935.—The following rules regulating the training and probation of the members of the Bengal Civil Service (Judicial) are published for general information:—

Draft rules.

1. Every candidate, on appointment as a munsif, will be on probation for two years, and will be liable to removal at the discretion of Government after consultation with the High Court at any time during the period. The High Court may extend the period in particular cases.

2. Munsifs on probation will be placed for training under selected District Judges. They should be given as much experience as possible of judicial (civil and criminal) and revenue work and also of the control and management of an office.

A probationer will be expected to have a thorough working knowledge of the books which are set for examination. He should make a study of well-known legal works, the codes and law reports, the Rules and Orders (Civil) and the Manual of Instructions for the Conduct of Civil Cases. In particular he must be well acquainted with the account rules in Rules and Orders (Civil).

3. The period of probation shall ordinarily be divided between the different branches of training as follows:—

(*1*) Four months in the aggregate in the offices of (*i*) a munsif, and (*ii*) a subordinate judge, and in case work in such courts.

(*2*) Six weeks on training in general revenue work.

(*3*) Two months on training in magisterial work.

(*4*) Three months on training under District and Sessions Judge.

(*5*) Two months on training in the conduct of cases.

(*6*) Four months training in survey and settlement under a Settlement Officer and six weeks training in survey during which they should attend the course of the pleaders' survey training classes at the Bengal Engineering College, Sibpur, or at Ahsanullah School of Engineering, Dacca.

During the rest of the period of probation the probationer may be required to officiate in temporary vacancies and to undertake other suitable miscellaneous duties connected with the judicial administration. Selected probationers may also be given training for short periods in the Secretariat and in the High Court.

4. The District Judge will determine the length of the period to be spent in the office of (*i*) a munsif and (*ii*) a subordinate judge and will nominate a selected officer of each class to supervise this branch of the probationer's training.

Not less than one-third of the period during which a probationer is attached to office of a munsif and subordinate judge should be devoted to practical experience of the administrative work of a civil

judicial office. The probationer should acquire a thorough acquaintance with the work of each department and particularly with—

(a) the registers maintained and the various forms in use in the offices of a munsif and of subordinate judge and the work in the nazaret (including distribution of processes and the holding of sales), the accounts department record-room and the copying department;

(b) the classification and arrangement of papers in the records of suits and cases;

(c) the preparation of decrees and sale certificates;

(d) the preparation of monthly, quartely and annual statements;

(e) the arrangement, examination, preservation and destruction of records deposited in the District Judge's record-room.

(f) work under the Money-lenders Act (VII or 1933).

5. The probationer should be employed in the inspection of all branches of the various judicial offices.

6. For training in judicial work the probationer should first attend the court of a munsif and then that of a subordinate judge during the trial of cases. Subject to the following limitations the District Judge will give directions in this regard. As a part of his training the probationer should sit with a munsif or a subordinate judge, as the case may be, during the trial of cases, record the depositions of the witnesses, prepare a synopsis of the pleadings, make a summary of the oral and documentary evidence, take notes of the arguments of pleaders, and write a decision discussing the law (including case law) applicable to the facts of the case. At least once during this period the training of the probationer should be continuous, for at least a fortnight, in each class of court, and he should sit throughout the day and make a record of the proceedings. He should also during this period pay attention to the matters referred to in rule 16 below and to the application in practice of the instructions therein contained in Rules and Orders (Civil) and the Civil Suit Instruction Manual.

In twelve cases of a munsif's court and four cases of a subordinate judge's court, the probationer should record the depositions of the witnesses, prepare a synopsis of the pleadings, make a concise summary of relevant portions of the oral and documentary evidence, take notes of the arguments of the pleaders, and write a decision discussing the law (including case law) applicable to the facts of the case. Three of the cases should be under the Small Cause Court procedure.

Probationers should be encouraged to learn the use of a typewriter.

7. The record of the cases prepared (preferably typewritten) will be kept neatly filed and should be submitted to the subordinate judge or munsif, as the case may be, who will examine them to see that they are carefully and intelligently prepared and will give suitable directions and advice. The District Judge should also examine a few records to enable him to give instructions and to become acquainted with the merits of the probationer. The District Judge will decide whether the recording is sufficient.

8. The probationer may also be deputed to make local inspections and to execute minor commissions (ordinarily such as do not require technical knowledge) whenever feasible and, if so required, he will that such work does not interfere with the rest of his training. All give evidence in connection with his reports. Care should be taken sums payable to the probationer munsifs as their fees and travelling allowance for the execution of commissions by them shall be credited to Government and the probationers will draw travelling allowance under the ordinary rules.

9. The probationer should study during this period the Indian Evidence Act, the Civil Procedure Code, the Bengal Tenancy Act, the Transfer of Property Act, the Contract Act, the Court-fees Act, the Suits Valuation Act and the Stamp and Limitation Acts and Registration Law.

10. For training in revenue work, the District Judge will depute the probationer to the office of the Collector. It will be the duty of the Collector to arrange for and look to the training of the probationer so that he may acquire a general acquaintance with the rules, practice and procedure of the Revenue Departments in (*1*) land registration and certificate procedure, (2) partition and land acquisition, (3) cess and revaluation, (4) tauzi and land revenue sales, (5) treasury (judicial transactions only), (6) deposit and disbursement of landlord's transfer fees under the Bengal Tenancy Act and (7) in registration law and rules under the District Registrar.

11. For the training in magisterial work the probationer will be placed under the District Magistrate, who will arrange for the training of the officer so that he may acquire a sound insight into the law and procedure in criminal trials.

During this period the probationer should read the High Court's Rules and Orders (Criminal), the Penal Code and the Code of Criminal Procedure, and take special notes of the procedure in respect of directing or sanctioning prosecution for offences under Chapters XI and XVIII of the Indian Penal Code. Court work should be on the lines of the training of a probationer in the court of a munsif or a subordinate judge as provided in rules 6 and 7, and the probationer may be vested with the powers of a magistrate of the second class as a Special Magistrate for a term under section 14 (*2*) Criminal Procedure Code.

12. A probationer will be required to attend the hearing of a number of selected cases to be heard by the District Judge. He will take notes of the arguments of the pleaders and write a decision discussing the application of the law, including reported cases bearing upon the facts of the case.

The probationer will also be required to prepare a synopsis of some civil, criminal and miscellaneous appeals not yet heard by the District Judge, indicating the law or laws bearing upon the facts of the cases and the material points arising in the appeals with reference to relevancy and cogency.

The records prepared by the probationer will be submitted to the District Judge, who will examine them and give him suitable directions and advice.

13. The probationer should attend a few sessions trials selected by the Sessions or Additional Sessions Judge and watch the proceedings so as to acquire familiarity with the practice and procedure of sessions trials.

14. Opportunity should be afforded to the probationer to become thoroughly familiar with the working of the offices of the District Judge in its English and Vernacular Departments, and the rules and practice relating thereto. When he has gained some experience of the working of the office, he may be deputed to inspect the offices or specified departments thereof, and write notes of inspection to be submitted to the District Judge, who will give him suitable directions and advice. The inspection notes should be prepared with special reference to the observance of the provisions of the Rules and Orders (Civil).

A probationer shall also be trained in the work of a Registrar as contemplated in Chapter 9, paragraphs 17-22 at pages 140-47 of the Civil Justice Committee's report as far as possible.

15. The probationer, if not deputed under the orders of the High Court to take temporary charge of a munsifi, will be placed under the Government Pleader or Public Prosecutor for training in the practice and procedure of preparation and conduct of civil and criminal cases. Where the functions of Government Pleader and Public Prosecutor are performed by different practitioners, the period of training under such will be determined by the District and Sessions Judge.

16. The probationer should study particular cases selected by the legal practitioner under whom he is working. He should prepare the cases, attend the hearing in Court, and take notes of the trial. His notes should be submitted to the Government Pleader/Public Prosecutor, who will forward them to the District Judge/Sessions Judge and the District/Sessions Judge shall examine and pass suitable orders on them. While under the Public Prosecutor the probationer should, so far as practicable, be given the opportunity of understanding the procedure in the investigation and submission of cases by the police. During the period of his training under the Government Pleader he will study the special procedure relating to admission and discovery and the inspection of documents and also the procedure relating to interlocutory matters.

17. The probationer will undergo a course of study, to be fixed by Government in theoretical and practical survey, especially chain survey, compass survey, levelling and thedolite at the Bengal Engineering College, Sibpur, or the Ahsanullah School of Engineering, Dacca. He will also undergo a course of settlement training under the Revenue Department, the course being similar to that prescribed for probationary Deputy Magistrates.

No probationer, who had previously passed the pleaders' survey training examination or had completed the survey training course at Mainamati, will be required to attend the pleaders' survey training classes at Dacca or Sibpur and he may be employed elsewhere during the period spent by other probationers for attending these classes.

18. *(1)* Subject to the condition that the aggregate of the period of training shall not be less than two years, the High Court may at its discretion vary the length of the period of training of a probationer in respect of any item of training, and may also in particular cases permit variations in the details of the training.

(2) Before the expiry of his probationary period, the probationer *must* pass such departmental examinations as may be prescribed by the High Court in consultation with the Local Government. Such departmental examinations which shall be held by the Central Examination Committee may include (*i*) an oral examination in Hindustani, (*ii*) a paper in law with books of the same nature as that prescribed in the Departmental Examination Rules for officers of the Bengal Civil Service (Executive), (*iii*) a paper on Rules and Orders (Civil), Civil Suit Instructions Manual, the Court-fees Act, the Stamp Act and the Suits Valuation Act, and may include a test in writing a judgment and in solving legal problems based on current leading cases, (*iv*) an examination on the matters studied in the training under rules 10 and 17.

The examination in the Rules and Orders (Civil) and Court-fees, Stamp and Suits Valuation Acts will test in particular the extent to which the examinee has acquired practical facility in applying the rules and the provisions of the Acts.

A probationer whose mother-tongue is not Bengali may be required to pass a language examination in that subject.

19. A probationer will not be recommended by the High Court for confirmation unless the District Judge, the District Magistrate and Collector and the Settlement Officer certify to his general efficiency and knowledge of the subjects in which he had undergone a training under them.

18. The promoters shall not without the consent of the Forest Officer in charge of the district cut down or lop any tree growing along or by the side of the ropeway or lands under the control of such Forest Officer, provided that in the case of emergency the promoters may remove or lop branches or any portion of a tree which stands in such a manner as to be a source of danger or impediment to the ropeway traffic, and in any such case they shall, without loss of time, report their action for confirmation by the Forest Officer.

Traffic and traffic working.

19. The ropeway may be used for the purpose of public carriage of animals and goods and small live-stock such as pigs, sheep, calves and goats only. All animals and goods and such small live-stock as aforesaid which will not, in the opinion of the ropeway management and of the Local Government, interfere with the proper and safe running of the ropeway or the safety of the staff or public shall be carried, but the management shall have the right to refuse to carry such animals or goods or live-stock as in its opinion are dangerous or obnoxious or beyond the capacity of the ropeway.

20. At the outset the maximum rate for the carriage of goods including poultry if packed in baskets is fixed at five annas per maund, but the Local Government reserves the right to increase or lower this rate and to fix different rates for traffic to and from intermediate stations. For the purpose of assessing the rate to be charged in respect of such small live-stock as aforesaid other than poultry packed in baskets, each animal shall be carried at a minimum rate of five annas as if it weighed one maund.

21. The Local Government or the district board of Darjeeling or the Darjeeling Municipality in order of preference at the discretion of the Local Government and with the previous sanction of the Local Government shall be entitled to exercise the option to purchase the ropeway conferred by section 24 of the Act either on 31st day of March 1954 or on the 31st day of March in the last year of any subsequent period of ten years on payment of the value of all lands, buildings, works, materials, plant and apparatus of the promoters, suitable to and used by them for the purposes of the undertaking *plus* 20 per cent. of that value on account of compulsory purchase, such value in the case of difference or dispute to be determined by arbitration in accordance with rules framed from time to time under this Act.

22. The promoters are authorised with the previous approval of the Local Government to transfer their entire rights in this undertaking to any other company to be floated for the purpose of constructing and working the ropeway, and the consideration of such transfer shall be limited to the extent of the actual expenditure incurred by the promoters on this undertaking and in obtaining this order.

23. In case it be hereafter found that any portion of the alignment adopted by the promoters for the ropeway interferes with the location of any new lines of railway or roadway, or the extension of any existing line of railway or roadway, the alignment occupied by the ropeway shall be without undue delay, at the request of the Local Government abandoned in favour of the railway or the roadway and the ropeway shall be diverted or altered in such a way and in such a manner as shall appear to the Inspector appointed under section 11 of the Act or other officer duly appointed in this behalf by the Local Government to be fair and proper, provided that the actual cost incurred in this connection shall be borne by the authorities of the said railway or roadway.

24. The promoters shall adopt and apply all such improvements in the ropeway and in the carriers and appliances thereon as the Local Government may from time to time consider necessary or desirable for the safety or convenience of the public.

25. In the event of any work required by the Act or by this order or any order or orders issued from time to time under the Act or under any rule or rules framed thereunder to be done by the promoters is not done by them, the Local Government may cause a notice to be served on the promoters requiring them within a period to be prescribed in the said notice to execute the said work, and if within the period so prescribed such requisition is not complied with, the Local Government may cause such work to be done and the cost thereof shall be recovered from the promoters. The certificate of the Inspector appointed under section 11 of the Act or other officer appointed by the Local Government in this behalf shall be conclusive evidence that all expenses referred to in such certificate have been incurred in carrying out such work and the promoters shall not be at liberty to dispute the same.

26. The promoters shall provide without unreasonable delay such statistics relating to the ropeway or to the traffic thereon as may from time to time be required by the Local Government.

27. It is hereby expressly provided that no concession granted under this order confers on the promoters any exclusive right as carriers over any part of the tract traversed by the ropeway.

2. The draft will be taken into consideration on the 2nd January 1936, and any objection or suggestion received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be duly considered:—

Draft by-laws.

I.

By-laws under clause (a) of section 375 of the Bengal Municipal Act, 1932, for the regulation of conduct of business in places used for the purposes mentioned in clauses (i) (ii) and (v) of sub-section (1) of section 370.

1. The licensee shall connect all drains in the place licensed under section 370 intended for the discharge of foul water with a municipal sewer, and the licensee shall not allow any foul water or refuse matter from such place to be discharged into a river, or channel, or any other reservoir of water intended for bathing, drinking or any other domestic purpose.

2. Where there is no sewer, the licensee shall collect the waste water from a place licensed under section 370 in properly constructed cesspools. Such cesspools shall be periodically cleansed or treated by the licensee in such a way as to render them inoffensive by activated sludge process or the contents thereof shall be otherwise disposed of in such manner as may be required by the Sanitary Inspector, Health Officer, or Chairman.

3. The licensee shall arrange for sufficient supply of water for cleansing the place licensed under section 370.

4. The licensee shall not cause or suffer any skin or hide which by reason of decomposition has become useless for the purpose of leather dressing, to be kept for a longer time than may be necessary in any part of the place licensed under section 370.

5. The licensee shall, at the close of every working day, cause every floor or pavement in the place licensed under section 370 to be thoroughly swept and washed. He shall, at the same time, cause all filth or refuse deposited on the floor or pavement of such place to be collected in suitable vessels or receptacles furnished with closely fitting covers and to be forthwith removed therein from the place.

6. The licensee shall cause the supply of water in every tank or other receptacle used upon the place licensed under section 370 for the washing or soaking of any skin or hide and not being a liming pit to be renewed as often as may be necessary to prevent the emission of noxious or injurious effluvia from the contents of the tank or other receptacles.

He shall cause every such tank or other receptacle to be furnished with a suitable cover and to be kept covered unless it is required to be kept open.

He shall cause every part of the tank or other receptacle, when emptied, to be thoroughly cleansed and shall cause all filth which has been removed therefrom to be forthwith conveyed from the place licensed under section 370 in suitable vessels or receptacles furnished with closely fitting covers, for disposal in a manner approved by the Commissioners.

7. The licensee shall cause all waste lime which has been taken out of any pit upon the place licensed under section 370 to be forthwith deposited in suitable vessels or receptacles or in a properly constructed cart or carriage which, when filled or loaded, shall be covered in such a manner as to prevent the emission of noxious or injurious effluvia from the contents thereof, and shall with all reasonable despatch be removed from the said place for deposit in a place fixed by the Commissioners or disposal in a manner approved by the Commissioners.

8. The licensee shall cause every beam, table, bench, knife, hammer or other implement or apparatus used upon the place licensed under section 370 for the purpose of unhairing, fleshing, breaking, scrapping, rounding, scudding or stocking any hide, butt or pelt or in any other process of his trade, to be cleansed from time to time as often as may be necessary to prevent any accumulation of filth upon the beam, table, bench, knife, hammer, implement, or apparatus.

9. The licensee shall cause all filth which has been splashed upon any part of the internal surface of any wall of any building upon the place licensed under section 370 to be removed by scraping or by some other effectual means of cleansing at least twice in every

year, that is to say, at least once during each of the periods between the first and twenty-first day of March and the first and twenty-first day of September. He shall at the same time cause every part of the internal surface above the floor or pavement of the building to be thoroughly washed with hot limewash:

Provided (*i*) that the foregoing requirements as to limewashing shall not apply to any part of the internal surface of any building which is painted or covered with impervious material and may be otherwise properly cleansed and (*ii*) that this by-law shall not apply to any part of any such building which is used only for the storage of dry leather.

10. The licensee shall cause any part of the internal surface of the walls of any building and every floor or pavement upon the place licensed under section 370 to be kept at all times in good order and repair so as to prevent the absorption therein of any liquid filth or refuse or any noxious or injurious matter which may be splashed or may fall or be deposited thereon.

11. The licensee shall cause every part of the interior and exterior of every tub or other vessel or receptacle used upon the place licensed under section 370 to hold a solution of the material known as "puer" to be thoroughly cleansed by scrubbing or by some other effectual means once at least in every week.

12. In a place licensed under section 370 in which the fleshing meat is dried for subsequent sale for the manufacture of such articles as glue or jujubes, the licensee shall cover the drying area by wire netting so as to prevent carrion birds from carrying away the material and dropping it in the vicinity of inhabited areas.

13. A breach of any of the provisions of by-laws 1 to 12 shall be punishable with fine which may extend to fifty rupees and when the breach is a continuing one, with a further fine which may extend to five rupees for every day after the date of first conviction during which the offender is proved to have persisted in the offence.

II.

1. The licensee shall not use or allow to be used any portion of a place licensed under section 370, for residential or sleeping purposes, nor shall use or allow to be used any room within a building, in such place as a living or sleeping room, unless it is separated from the remaining portion of the said place by a substantial wall and contains a window opening directly to the sky and of dimensions not less than one-tenth of the superficial area of the room.

3. The licensee shall store all materials which have been received on the place licensed under section 370 and which are not required for immediate use in the trade in such a manner and in such a condition as to prevent the emission of noxious or injurious effluvia therefrom.

4. The licensee shall thoroughly cleanse and wash at the close of every working day all floors or pavements in the place licensed under section 370 and shall collect all fragments of gut or other matter detached in the process of scraping and all garbage, filth or other offensive matter and place them in suitable vessels or receptacles to be forthwith removed with their covers affixed from the said place to a safe place of disposal appointed by the Commissioners or to be disposed of in a manner approved by the Commissioners. Each such vessel shall be constructed of galvanised iron or of some other non-absorbent material and furnish with a closely fitted cover and shall contain a sufficient quantity of a deodorant solution.

8. The licensee shall adopt the best practicable means for rendering innocuous all gas or vapour emitted during any trade process either from the articles operated upon or from the contents of any cask, tank, vat, pan, trough or other receptacle upon the place licensed under section 370.

9. The licensee shall thoroughly wash within each first ten days of March, June, September and December of every year the interior of the place licensed under section 370 above the floor or pavement with hot limewash if such place has been in use since the last occasion on which it was so washed:

Provided that this by-law shall not apply to any part of such place as is covered with impervious material, in which case it shall be sufficient thoroughly to cleanse the same by washing with water.

10. The licensee shall not allow facility for the absorption of any liquid filth, refuse or other noxious or injurious matter in the interior of a place licensed under section 370 by reason of want of repair to the surface thereof.

11. The licensee shall adopt all appliances or means which the Commissioners may from time to time require for the purpose of preventing, abating, or minimising any nuisance or annoyance to the neighbourhood or to the public from the use to which a place licensed under section 370 is put and shall at all times maintain them in good and efficient order.

12. The licensee shall trap and connect the drains in a place licensed under section 370 with sewers with the consent of the Commissioners. Where there are no sewers or where permission to connect drains with the existing sewers has been refused by the Commissioners the licensee shall collect waste water from such place in properly constructed cesspools. These should be periodically cleansed and the contents thereof treated in a manner to render them inoffensive or in such other way as the Commissioners may require before disposal in the way recommended by them.

13. A breach of any of the provisions of by-laws 1 to 12 shall be punishable with fine which may extend to fifty rupees and when the breach is a continuing one, with a further fine which may extend to five rupees for every day after the date of the first conviction during which the offender is proved to have persisted in the offence.

9. The licensee shall provide air-tight lids or covers for every tank, cask or other receptacle, whether in daily use or not, kept for the purpose of dyeing in a place licensed under section 370. All such receptacles should be covered with air-tight lids overnight so that mosquitoes may not have the chance of gaining entrance into the receptacles.

10. Whenever dyeing is temporarily suspended the licensee shall fill all unused pots in a place licensed under section 370 with sand and shall cover them mull or guaze tied tightly round their necks to prevent mosquito breeding in them during the period of such suspension.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

THE BENGAL DEVELOPMENT ACT, 1935.

[Published in the *Calcutta Gazette* of the 3rd October, 1935.]

An Act to provide for the development of lands in Bengal and to impose a levy in respect of increased profits resulting from improvement works constructed by the Government.

WHEREAS it is expedient to provide for the development of lands in Bengal and for that purpose to impose a levy in respect of increased profits resulting from improvement works constructed, by the Government and to provide further powers in regard to works of improvement;

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act;

5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Bengal Development Act, 1935.

(*2*) It extends to the whole of Bengal.

(*3*) It shall come into force on such date as the Local Government may, by notification, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) "agricultural lands" include lands used for the growing of vegetables and the like but does not include fruit gardens, orchards or homestead lands;

(*2*) "canal" means a canal as defined in clause (*1*) of section 3 of the Bengal Irrigation Act, 1876; (Ben. Act III of 1876.)

(*3*) "Collector" includes any officer specially appointed by the Local Government to perform all or any of the functions of a Collector under this Act;

(*4*) "dead or decayed river" includes any river into which, or along any part of which, water has ceased to flow as freely as it would have flowed if it had not been diverted or obstructed whether owing to natural causes or as a result of interference by man, and includes also any depression which at one time formed part of a river-bed but through which there is no longer any perennial flow of water;

(*5*) "improvement work" means any work of improvement constructed by the Government, before or after the commencement of this Act, or proposed to be constructed by the Government, which the Local Government has, by notification, declared to be an improvement work for the purposes of this Act:

Provided that no road or railway constructed before the commencement of this Act shall be so declared;

(*6*) "notification" means a notification published in the *Calcutta Gazette*;

The Bengal Development Act, 1935.

(Sections 3—7.)

(7) "notified area" means any area in respect of which the Local Government has, by a notification issued under sub-section (1) of section 5, declared its intention to impose an improvement levy, and includes any part of such area ;

(8) "period for objection" means a period mentioned in a notification under this Act within which objections or suggestions will be received ;

(9) "prescribed" means prescribed by rules made under this Act ; and

(10) "rent" and "tenant" have the same meanings as in the Bengal Tenancy Act, 1885. VIII of 1885.

Preliminary notification of intention to impose improvement levy.

3. Whenever, in the opinion of the Local Government, any improvement work has increased or is likely to increase the profits from the produce from any agricultural land, or to increase the outturn of such produce, within any area, the Local Government may, by notification, declare its intention to impose an improvement levy within that area.

Publication of particulars.

4. A notification under section 3 shall state the following particulars—

(a) as full a description of the improvement work as, in the opinion of the Local Government, may be practicable ;

(b) the object for which such work has been, or is proposed to be, constructed ; and

(c) the boundaries of the area within which the Local Government intends to impose the improvement levy.

Abandonment of intention or declaration of intention to impose improvement levy.

5. (1) After the expiry of a period for objection to be mentioned in a notification under section 3 the Local Government shall consider the objections and suggestions, if any, received by it and thereafter shall, by notification, declare its intention either wholly to refrain from imposing the improvement levy or to impose the same in the area concerned or in a specified part thereof, whereupon the area in respect of which the Local Government has by such a notification declared its intention to impose the improvement levy shall be deemed, for the purposes of this Act, to be a notified area.

(2) The Local Government may, so far as may be in the manner hereinbefore provided, from time to time include in or exclude from any notified area any area which, in the opinion of the Local Government, has benefited or has not benefited, as the case may be, from the improvement work.

Recommendation by the Bengal Legislative Council for imposition of improvement levy.

6. No expenditure shall be incurred for the construction of any improvement work in respect of which the Local Government intends to impose an improvement levy, and no improvement levy shall be imposed in respect of any improvement work, unless the Bengal Legislative Council has, by a resolution, recommended the imposition of an improvement levy in respect of such work :

Provided that nothing in this section shall apply to the Damodar Canal (including the Eden Canal) and the Bakreswar Canal.

Imposition of improvement levy.

7. When the Local Government is satisfied that a notified area has benefited or is likely to benefit from an improvement work it may, by notification, subject to the provisions of section 6, impose the improvement levy in that area from such date as may be specified in the notification.

The Bengal Development Act, 1935.

(Sections 8—10.)

Estimate of increased outturn of produce from agricultural land.

8. *(1)* From time to time an officer appointed by the Local Government shall, in accordance with rules made under this Act, and after hearing any objections in the prescribed manner, prepare in respect of land throughout a notified area an estimate of the average increase in the outturn of the produce from agricultural land of any class which, in his opinion, has been or is likely to be made possible by any improvement work, on the assumption that the land has produced and will produce the staple food crop notified under section 39 of the Bengal Tenancy Act, 1885, in respect of that land :

Provided that the Local Government may, at its discretion, direct that the estimate be made on the assumption that the land has produced or will produce some other crop or crops.

(2) The Board of Revenue shall, by notification, publish such estimate and, after a period for objection to be specified in such notification, shall consider the objections and suggestions, if any, received by it and shall report to the Local Government thereon. Thereafter the Local Government may reject the estimate or may, by notification, accept it with or without modification, whereupon the accuracy of any estimate so accepted shall not be questioned in any Court.

(3) Where an estimate has been accepted under sub-section *(2)* in respect of a notified area before the imposition of the improvement levy, such estimate shall, as soon as may be practicable after the expiry of two years from the date of the imposition of the levy, be revised in the manner provided in sub-sections *(1)* and *(2)* for the preparation, publication, and acceptance of an estimate.

Fixing value of increased outturn.

9. The Local Government shall, by notification, fix annually or for such period not exceeding five years as may be specified in the notification the price or prices on the basis of which the value of the average increase in the outturn, as estimated under section 8, from land of any class in a notified area is to be calculated.

Maximum limit and incidence of improvement levy.

10. *(1)* Notwithstanding anything contained in any other Act the improvement levy shall be imposed in respect of agricultural lands within a notified area at such rate or rates as the Local Government, may, by notification, from time to time declare, and different rates may be so declared for classes of land of different descriptions or having different advantages:

Provided that any rate so fixed shall not exceed one-half of the estimated net increase, resulting from the improvement work, in the profits or one-half of the net value of the estimated increase in outturn.

Such improvement levy shall be payable by the occupiers of such lands within the notified area.

Explanation.—In this sub-section the expression "estimated increase in outturn" means the average increase in the outturn of agricultural produce as estimated under section 8.

(2) The rate or rates of the improvement levy shall be fixed under sub-section *(1)* for one year or for such period not exceeding five years as may be specified in the notification issued under that sub-section.

(3) For the purposes of sub-section *(1)* the net increase in the profits and the net value of the estimated increase in outturn shall be estimated, in accordance with rules made under this Act, on the price or prices fixed under section 9.

The Bengal Development Act, 1935.

(Sections 11, 12.)

(*4*) The Local Government may, by rules made under this Act, declare what persons or classes of persons shall be deemed, for the purposes of sub-section (*1*), to be occupiers of land but no person shall, by such rules, be declared to be an occupier of land unless, otherwise than as a hired labourer, he cultivates such land or (if it is not cultivated) unless he is in direct possession of such land.

(*5*) Notwithstanding anything contained in sub-section (*4*), where a person under the system generally known as "*adhi*," "*barga*" or "*bhag*," cultivates the land of another person on condition of delivering a share of the produce to that person or receiving a share thereof from him, the person whose land is cultivated and the person who cultivates it shall each be deemed, for the purposes of sub-section (*1*), to be an occupier of such land, and each shall be liable to pay a prescribed proportion of the improvement levy imposed in respect of such land, and any contract to the contrary shall, to that extent, be void.

(*6*) In the case of any land, the amount of improvement levy realised for any year—

(*a*) in respect of the Bakreswar Canal shall not exceed four rupees eight annas per acre ;

(*b*) in respect of the Damodar Canal and the Eden Canal shall not exceed five rupees eight annas per acre :

Provided that in the case of any land which was irrigated from the Eden Canal in any year during the ten years prior to the first day of April, 1935, such amount shall not exceed three rupees eight annas per acre.

Additional improvement levy in certain cases.

11. (*1*) Notwithstanding anything contained in section 10, if in any notified area any unculturable waste, swamp, or sand has, as a result of an improvement work, become culturable land, and such land is thereafter settled with any tenant, the person who settles the land shall be liable to pay, in one sum, an improvement levy of such amount as may be fixed by the Collector, in accordance with rules made under this Act, after considering any objection that may be made in the prescribed manner by such person.

(*2*) The amount fixed under sub-section (*1*) shall not exceed one-half of the difference between—

(*a*) the amount which the Collector estimates to be the usual *salami* for a like area of land, in the vicinity, similar in its description and its advantages to the land as it is at the time of the settlement, and

(*b*) the amount which the Collector estimates to have been the usual *salami* before the commencement of the improvement work, for a like area of land, in the vicinity, similar in its description and its advantages to the land as it was at that time.

Such levy shall be additional to the levy payable under section 10 by the occupier of the land.

Amount of improvement levy after realisation of capital cost and other charges.

12. When in respect of any improvement work—

(*a*) the capital cost of such work, including the cost of any extensions, improvements or modifications of the work,

(*b*) the interest charges on such capital cost,

(*c*) any working loss in any year or years, and

(*d*) the interest on such loss,

The Bengal Development Act, 1935.

(Sections 13—16.)

as determined by the Local Government, have been recovered in full out of the proceeds of the improvement levy, by such annual allocations as may be prescribed, the amount of the improvement levy to be realised for each year in respect of such work shall thereafter be reduced to such a sum as the Bengal Legislative Council may, by a resolution, recommend :

Provided that in respect of the Damodar, Eden and Bakreswar Canals such sum shall not exceed the amount required to meet the annual cost, as determined by the Local Government, of maintenance and supervision of the improvement work and of collection of the improvement levy.

Explanation.—The term " working loss " means the sum by which the proceeds of the improvement levy in any year or years fall short of the amount necessary to meet—

(*i*) the annual allocations for such year or years in respect of the charges specified in clauses (*a*) and (*b*), and

(*ii*) the cost, as determined by the Local Government, of maintenance and supervision of the improvement work, and of collection of the improvement levy, during such year or years.

Preparation and publication of statements of imposition of improvement levy.

13. The Collector shall, from time to time, prepare and publish in the prescribed form and manner for a notified area or any part thereof a statement showing—

(*i*) the name of every person who is liable to pay the improvement levy in respect of any land in such area or part, and

(*ii*) the amount of improvement levy to be paid by each such person, annually or otherwise, in respect of such land.

Notice of demand.

14. The Collector shall serve a notice of demand in the prescribed form and manner and containing the prescribed particulars, on every person whose name appears in a statement published under section 13 requiring him to pay the levy by such date or dates as may be specified in the notice.

Explanation.—A dead or decayed river is said to be revived when an increased volume of water is, by any means whatsoever, caused to flow freely into or along any part of such dead or decayed river.

Claims for compensation.

(*b*) if a settlement is made of such land with a tenant thereafter, the rate of rent at which such land is settled shall not exceed the average rate of money rent payable, at the time of such settlement, by tenants of a similar class for land of a similar description and with similar advantages in the vicinity, and any rent in excess of such rate shall not be recoverable:

Provided that such average rate may be exceeded on the grounds specified in clause (*b*) or clause (*c*) of section 30 of the Bengal Tenancy Act, 1885, by such amount as would be allowable in a suit for enhancement of rent under the said section if the land had been settled with a tenant at such average rate at the time of the imposition of the levy.

DEPARTMENT OF AGRICULTURE, BENGAL.

Calcutta, the 24th September 1935.

Preliminary Forecast of the Bhadoi Crops of Bengal, 1935-36.

(*Note*.—On an average of the five years ending 1933-34, the area under autumn rice in Bengal has represented some 6·5 per cent. of the total area under rice in British India.)

Character of the season.—At the outset weather was generally favourable for preparatory tillage. In East and parts of North Bengal low land sowings proceeded satisfactorily with the usual soil moisture while high land sowings progressed slowly owing to insufficient rainfall in April and in the early part of May. From the second half of May general rain facilitated sowings especially in West and parts of North Bengal. As a result of the weak monsoon, conditions were not favourable for growth and development especially in West and parts of North Bengal and outturn was reduced in consequence. On the whole, the season was fair for the crops.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,498,600 acres as against 6,301,100 and 6,311,600 acres, respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,780,400 acres as against 5,562,900 and 5,571,800 acres, respectively, in the corresponding and final forecasts of last year. The large increase in area under autumn paddy is mainly attributed to intensive propaganda to restrict jute cultivation.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 74 per cent. of the normal this year as against 73 per cent. both in the corresponding and final forecasts of last year. Autumn rice is estimated to yield an outturn of 74 per cent. of the normal for the province this year as against 72 per cent. both in the corresponding and final forecasts of last year.

K. McLean,

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 26th September 1935.

Second Forecast of the Sugarcane Crop of Bengal, 1935-36.

(*Note*.—On an average of the five years ending 1933-34, the area under sugarcane in Bengal has represented some 7·2 per cent. of the total area under sugarcane in India.)

Character of the season.—At the planting season weather was generally favourable but drought after germination affected the early period of growth, especially in West and parts of East Bengal. From the second half of May alternate rain and sunshine proved beneficial for growth and development generally. The present prospects are reported to be satisfactory, on the whole.

Area planted.—The total area planted with the crop for the province is reported to be 325,300 acres this year as against 275,900 and 276,200 acres reported, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province this year works out at 85 per cent. of the normal against 84 and 86 per cent., respectively, in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the cane crop is estimated at 85 per cent. as against a ten years' average of 84·5 per cent. This means that the condition of this year's crop is equal to about 101 per cent. of the ten years' average.

K. McLEAN,

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 26th September 1935.

First Forecast of the Winter Rice Crop of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under winter rice in Bengal has represented some 17·9 per cent. of the total area under rice in India.)

Character of the season.—The weather, at the outset, was generally favourable for preparatory tillage for broadcast paddy. Sowings were also carried on satisfactorily. Rainfall in April and early May, although defective, favoured germination of deep-water paddy. Rainfall from the end of May to June was sufficient for the preparation of lands for winter paddy seedlings and sowings in seedbeds and for the growth of the germinated deep-water paddy. Owing to defective rainfall in July and early August, transplantation of winter paddy progressed slowly in lowland tracts and the operation was delayed in highlands specially in West and North Bengal. Subsequent good rainfall from the end of August onwards, however, facilitated late transplantation generally. As a result of weak monsoon, transplantation has been late this year and the outturn consequently is likely to be affected.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 14,779,200 acres as compared with 14,598,500 and 14,760,000 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that 2 districts report a normal crop of 100 per cent., 16 districts a crop varying from 75 to 95 per cent. and the rest below 75 per cent. of the normal.

According to the above estimates, the provincial outturn works out to 80 per cent. as against 78 and 85 per cent. of the normal estimated in the corresponding and final forecasts of last year.

K. McLEAN,

Director of Agriculture, Bengal (offg.).

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1934-35.

During the year under report, the weather conditions were on the whole favourable in most districts with a satisfactory effect on the outturn of crops. Some damage to crops was, however, caused by floods in Satkhira and Bagerhat subdivisions of Khulna, in parts of Kushtia and Meherpur subdivisions in Nadia, in Narayanganj subdivision in Dacca and in parts of the districts of Murshidabad, Malda, Rajshahi, Jessore, Mymensingh, Chittagong, Tippera and Noakhali. On the other hand want of rain caused a certain amount of damage to crops in parts of the districts of Burdwan, Midnapore, Rajshahi, Murshidabad and to a greater extent in parts of Birbhum and Bankura producing conditions amounting to agricultural distress. Prompt and adequate measures were, however, taken to meet the situation by opening test relief works and by granting agricultural and land improvement loans and gratuitous relief. The amount of agricultural and land improvement loans distributed during the year in the whole presidency aggregated Rs. 7,97,324.

The material condition of the agricultural population showed some signs of improvement owing to a steady, though not very substantial, rise in the prices of paddy and rice in most of the districts. The price of the essential money crop of the province—jute—also showed definite improvement which may reasonably be attributed in considerable measure to the intensive propaganda for jute restriction undertaken by Government. The improvements noticed were not, however, such as to enable the cultivators to clear off their dues to money-lenders, and they were in many cases unable to pay rents due to their landlords. It is, however, a reassuring feature that there was a steady decrease of fresh borrowing and an increase in repayments during the year under report as compared with the previous year.

In the Chandpur subdivision of Tippera, Debt Conciliation Boards without statutory powers were at work during the year and succeeded in reducing claims of about Rs. 9 lakhs to Rs. 5 lakhs by bringing about purely amicable agreements between creditors and debtors.

2. The current demand of land revenue was Rs. 3,09,43,252 which showed an increase of Rs. 1,51,513 over that of the previous year and collections were 71·64 per cent. of the total and 101·18 per cent. of the current demand. The fact that there were only 1,930 sales as against 30,646 defaults indicated the leniency with which the sale law was administered.

3. In comparison with the previous year, the cost of management of Government estates increased by Rs. 26,903, the percentage of cost on current demand being 8·5 against 8·36 in the previous year. A sum of Rs. 97,419 representing 1·43 per cent. of the current demand was spent on agricultural, sanitary and miscellaneous improvements, while a sum of Rs. 1,23,174 or 1½ per cent. on collections from Government estates, was made over to the district boards of the province for the development of roads and communications in or leading to Government estates.

4. Agricultural demonstrations were carried out in the districts of Jessore, Chittagong, Noakhali, Jalpaiguri, Bogra, Malda and Darjeeling. In Faridpur a sixth batch of Bhadralok youths was, on the completion of their training in the Faridpur Agricultural Farm, allotted lands. In Bakarganj the twenty Bhadralok youths who were reported to have formed a house building society in last year's report, completed their houses at Char Fasson and some lands were settled with them. In Noakhali the scheme of settlement of

land with men of the Bhadralok class was cancelled as they failed to fulfil the conditions of settlement. In Rangpur an area of about 100 acres of agricultural land in Khas Mahal Mahadebpur was settled with nine educated Bhadralok youths.

The number of schools and of pupils attending them in Government estates decreased by 373 and 15,935, respectively, during the year under review.

5. A solid block of twenty-two villages with an area of 178 square miles is covered by the Bakarganj colonisation scheme now in its twenty-eight year. The *Tengagiri* chak with an area of 7,249·01 acres which was mentioned in last year's report as the only area which remained to be colonized has since been constituted into a reserved forest. In the 24-Parganas Sundarbans (colonization of which was in its twentieth year) no new area was taken up for reclamation. The total sum advanced by Government for reclamation in the 24-Parganas and Bakarganj Sundarbans and the total income derived from these areas up to the end of the year under report were Rs. 31,00,135 and Rs. 42,31,892, respectively.

6. The general health of the people in the Bakarganj Sundarbans area was good and crops were fair, but as the price of paddy remained still low there was no material improvement from an economic point of view, many persons remaining heavily indebted to Government and to co-operative societies. In the 24-Parganas Sundarbans the health of the colonists was not good and the outturn of crop was lower in comparison with the previous year owing to want of timely rain.

7. Taking the province as a whole, relations between private landlords and tenants did not show any marked deterioration while in Government estates the relations between the khas mahal tenants and the Government tahsildari establishment continued to be generally satisfactory.

8. Thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under the Board.

By order of the Governor in Council,

L. R. FAWCUS.

Whereas it is expedient to amend the Factories Act, 1934, for the purpose hereinafter appearing; It is hereby enacted as follows:— XXV 1934.

Short title. **1.** This Act may be called the Factories (Amendment) Act, 1935.

Amendment of section 43, Act XXV of 1934. **2.** In sub-section (*1*) of section 43 of the Factories Act, 1934, after the word "Chapter" the words ", other than the provisions of clause (*b*) of sub-section (*1*) of section 45 and of the provisos to that sub-section," shall be inserted. XXV 1934.
